AT&T Patent Listing
for QoS

Docket	Country	Patent Number	Application Number	Sub Status	Title
2005-0091	USA	8494559	11/322751	Patented	Method And System For Selecting A Wireless Access Technology Using Location Based Information
			14/337326	Filed	Method And Apparatus For Wireless Communication Using Location Based Information
		8792914	13/948205	Patented	Method And Apparatus For Wireless Communication Using Location Based Information
2007-0595	USA	9521690	14/739765	Patented	Method For QoS Delivery In Contention-Based Multi Hop Network
		8077737	12/284868	Patented	Method For QoS Data Delivery In Contention-Based Multi Hop Network
		9060310	13/291318	Patented	Method For QoS Delivery In Contention-Based Multi Hop Network
2008-1430	USA	8078769	12/326203	Patented	Automatic QOS Determination With I/O Activity Logic
2009-0092	USA	8472944	12/636760	Patented	Method And System For Determining Service Metrics In A Wireless Network
		8755789	13/925380	Patented	Method And System For Determining Service Metrics In A Wireless Network
C01-0039-000	USA	7193982	10/044386	Patented	System And Method For Providing Flexible Data Rate Transmission In A Telecommunications System
