Your New Google Pixel 6a Deserves America's Most Reliable 5G Network

Beginning July 22, New and Existing Customers Can Pre-Order the New Google Pixel 6a for $2/mo. - No Trade-In Required

DALLAS, July 22, 2022

What's the news? Beginning today, AT&T* customers can pre-order the new Google Pixel 6a for $2/mo. – no trade-in required – when they buy on a qualifying installment plan with an eligible AT&T unlimited plan[1] The new Pixel 6a will be available in store July 28 and will be able to access America's Most Reliable 5G Network.[2]

And for a limited time, AT&T Business customers can purchase the Google Pixel 6a for $0.99 on a two-year agreement plan.[3]

What about features?

- The Google Pixel 6a will come in two colors: Charcoal and Sage Green.
- It also comes with an adaptive battery that can last over 24 hours[4] to keep you connected all day long.
- It features Tensor™, Google's fastest processor made exclusively for Pixel, and protects your personal information with the Titan M2™ security chip.
- Camera features like Magic Eraser lets you easily remove photobombers and distractions with a single tap.[5]

Who was the Google Pixel 6a designed for? The Google Pixel 6a was made for customers looking for a high-quality phone at a great price that will help them perform their favorite tasks.

[2]Most Reliable 5G Network based on nationwide GWS drive test data. GWS conducts paid drive tests for AT&T and uses the data in its analysis.

[3]Available to qualified business customers. Wireless service is required and is extra. $45 Upgrade, early termination fee, other fees, taxes, charges & restr's apply. See att.com/smallbusiness and att.com/premier for details.

[4]Estimated battery life based on testing using a median Pixel user battery usage profile across a mix of talk, data, standby, and use of other features. Average battery life during testing was approximately 29 hours. Battery life depends upon many factors and usage of certain features will decrease battery life. Battery testing conducted in California in early 2022 on pre-production hardware and software, using default settings. Battery testing conducted using Sub-6 GHz non-standalone 5G (ENDC) connectivity. Actual battery life may be lower.

[5]Requires Google Photos app. Magic Eraser may not work on all image elements.
