AT&T Invests More Than $575 Million Over 3-Year Period to Enhance Local Networks in Colorado

DENVER, May 18, 2017 — At AT&T, we’ve invested more than $575 million in our Colorado wireless networks during 2014-2016. These investments drive a wide range of upgrades to reliability, coverage, speed and overall performance for residents and businesses. They also improve critical services that support public safety and first responders.

In 2016, AT&T made 683 wireless network upgrades in Colorado. We added new cell sites, boosted network capacity and expanded our LTE coverage footprint.

“We’re investing to provide faster, more reliable, highly secure connectivity. We want customers to have internet access at any moment, from almost any device—anywhere,” said Roberta Robinette, president, AT&T-Colorado. “These continued investments bring Colorado residents and businesses a host of new opportunities.”

The AT&T LTE network covers nearly 400 million people in North America. Notable Colorado network enhancements in 2016 included:

- Launched antenna systems to boost mobile internet coverage at Denver International Airport’s Westin Hotel and Transit Center, Cherry Creek Mall, Dick’s Sporting Goods Park and Winter Park Ski Resort;
- Upgraded LTE network capacity at Coors Field, Pepsi Center and Sports Authority Field;
- Added LTE network capacity in Denver, Ft Collins, Boulder, Westminster, Colorado Springs, Peterson AFB, Breckenridge, Steamboat Springs and Vail;

The First Responder Network Authority (FirstNet) recently chose AT&T to build a nationwide public safety broadband network. The network will be dedicated to America’s police, firefighters, EMS personnel and other first responders when they need it. Should Colorado opt-in to the FirstNet network, we will build upon our current and planned investments with a dedicated focus on the state’s first responders.

And we would expect to make a significant investment to upgrade and maintain Colorado’s FirstNet network over the next 25 years, bringing your first responders the coverage, value and experience they expect.
For the third year in a row, FORTUNE magazine recognized AT&T as the Most Admired Telecommunications Company in the world in 2017. We also No. 37 among the Top 50 World’s Most Admired companies.

AT&T is the only telecommunications company on the list. We ranked No. 1 in all 9 attributes. This included innovation, financial soundness and quality of products/services.
