AT&T Invests More Than $225 Million Over 3-Year Period to Enhance Local Networks in Memphis

MEMPHIS, Tenn., May 10, 2017 — At AT&T, we’ve invested more than $225 million in our Memphis wireless and wired networks during 2014-2016. These investments enhance reliability, coverage, speed and overall performance for residents and businesses. They also improve critical services that support public safety and first responders.

“We’re now speeding our wired and wireless buildout plans in Tennessee with hundreds of millions of dollars dedicated to improving our network,” said Joelle Phillips, president of AT&T Tennessee. “In addition to keeping Tennessee competitive with states across the country, this investment will also help pave the path to 5G mobile services in the years ahead.”

“Private investment is vital for the growth of our local economy and the commitment AT&T has made to Memphis will ensure our families stay connected and businesses remain competitive in today’s global marketplace,” said Phil Trenary, President and CEO of the Greater Memphis Chamber.

“It is encouraging to see investment in the community following the pursuit of pro-business policies in the general assembly,” said Mayor Jim Strickland. “As Memphians change how they communicate, it is vital that we continue to pursue policies that promote private investments in our networks.”

The AT&T LTE network covers nearly 400 million people in North America. Notable Memphis network enhancements in 2016 included:

- 66 Bandwidth Expansions
- 197 Additional Carrier Adds
- 1 New Cell Site

The First Responder Network Authority (FirstNet) recently chose AT&T to build a nationwide public safety broadband network. The network will be dedicated to America’s police, firefighters, EMS personnel and other first responders when they need it. Should Tennessee opt-in to the FirstNet network, we will build upon our current and planned investments with a dedicated focus on the state’s first responders.
And we would expect to make a significant investment to upgrade and maintain Tennessee’s FirstNet network over the next 25 years, bringing your first responders the coverage, value and experience they expect.

For the third year in a row, FORTUNE magazine recognized AT&T as the Most Admired Telecommunications Company in the world in 2017. We also placed No. 37 among the Top 50 World’s Most Admired companies.

AT&T is the only communications company on the list. We ranked No. 1 in all 9 attributes. This included innovation, financial soundness and quality of products/services.

We continue to expand the scope of our ultra-fast internet powered by AT&T Fiber. We now market our ultra-fast internet service powered by AT&T Fiber to more than 25,000 customer locations in the Memphis area.

We have the largest fiber network within our 21-state wireline footprint.² We also now market a 1 gigabit connection³ on our 100% fiber network to 4.6 million locations across 52 major metro areas. We plan to reach at least 75 major metros overall. We expect to add 2 million locations in 2017, and we plan to reach at least 12.5 million locations by mid-2019.

We have an extensive Wi-Fi network with more than 40,000 AT&T Wi-Fi hotspots at popular restaurants, hotels, bookstores and retailers. And we provide access to Wi-Fi at more than 1 million locations around the world. Most AT&T smartphone and home internet customers get access to the entire national AT&T Wi-Fi Hot Spot network.⁴ at no additional cost. Wi-Fi usage doesn’t count against customers’ monthly wireless data plans.
