AT&T Invests More Than $1.3 Billion Over 3-Year Period to Enhance Local Networks in St. Louis Area

ST. LOUIS, Mo., May 9, 2017 — At AT&T, we’ve invested more than $1.3 billion in our St. Louis area wireless and wired networks during 2014-2016. These investments enhance reliability, coverage, speed and overall performance for residents and businesses. They also improve critical services that support public safety and first responders.

In 2016, AT&T made more than 300 wireless network upgrades in the St. Louis area, such as new cell sites, boosting network capacity, upgrading in-venue Distributed Antenna Systems and expanding AT&T Fiber for homes and businesses.

“We’re investing to provide fast, reliable, highly secure connectivity. We want customers to have access to their communications, data and entertainment from their devices when and where they want it,” said John Sondag, president, AT&T Missouri. “These continued investments bring Missouri residents and businesses a host of new opportunities.”

“AT&T’s network investment in Missouri is exactly what we need to help grow a thriving, prosperous state economy,” said Dan Mehan, president, Missouri Chamber of Commerce and Industry. “Missouri’s economic future depends on this essential infrastructure, which helps keep residents connected to vital resources and enables businesses to grow their operations and expand their workforce.”

The AT&T LTE network covers nearly 400 million people in North America. Notable St. Louis area network enhancements in 2016 included:

- Upgrading more than 400 cell sites to provide an additional 60% overall capacity, giving wireless customers a faster, more reliable service.
- Launching AT&T Internet 1000 in the St. Louis area, reaching more than 75,000 homes and small businesses in the City of St. Louis, University City, St. Charles, Webster Groves, Kirkwood, Maplewood, Edwardsville and Swansea.
- Upgrading the Distributed Antenna System at Busch Stadium.
- Deploying Cell on Wheels mobile cell sites for dozens of large public events, including the Presidential Debate at Washington University, Soulard Mardi Gras, Fair St. Louis, Loufest, the Great Forest Park Balloon Glow, Washington Town and Country Fair, and more.

The First Responder Network Authority (FirstNet) recently chose AT&T to build a nationwide public safety broadband network. The network will be dedicated to America’s police, firefighters, EMS personnel and other first responders when they need it. Should Missouri opt-in to the FirstNet network, we will build upon our current and planned investments with a dedicated focus on the state’s first responders.
And we would expect to make a significant investment to upgrade and maintain Missouri’s FirstNet network over the next 25 years, bringing your first responders the coverage, value and experience they expect.

For the third year in a row, FORTUNE magazine recognized AT&T as the Most Admired Telecommunications Company in the world in 2017. We also placed No. 37 among the Top 50 World’s Most Admired companies.

AT&T is the only telecommunications company on the list. We ranked No. 1 in all 9 attributes. This included innovation, financial soundness and quality of products/services.

We continue to expand the scope of our ultra-fast internet powered by AT&T Fiber. We now market our ultra-fast internet service powered by AT&T Fiber to nearly 75,000 customer locations in the St. Louis area.

We have the largest fiber network within our 21-state wireline footprint.\(^2\) We also now market a 1 gigabit connection\(^3\) on our 100% fiber network to 4.6 million locations across 52 major metro areas. We plan to reach at least 75 major metros overall. We expect to add 2 million locations in 2017, and we plan to reach at least 12.5 million locations by mid-2019.

We have an extensive Wi-Fi network with more than 40,000 AT&T Wi-Fi hotspots at popular restaurants, hotels, bookstores and retailers. And we provide access to Wi-Fi at more than 1 million locations around the world. Most AT&T smartphone and home internet customers get access to the entire national AT&T Wi-Fi Hot Spot network.\(^4\) at no additional cost. Wi-Fi usage doesn’t count against customers’ monthly wireless data plans.

To learn more about our coverage in St. Louis or anywhere in the U.S., visit the AT&T Coverage Viewer. For updates on the AT&T wireless network, please visit the AT&T network news page.

\(^1\) AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand and not by AT&T Inc.

\(^2\) Based on publicly available data for the top fiber providers in the AT&T operating footprint.

\(^3\) Actual customer speeds may vary. Download speeds are typically up to 940Mbps due to overhead capacity reserved to deliver the data.

\(^4\) Wi-Fi enabled device required. Other restrictions apply. See www.attwifi.com for details and locations
