AT&T LAUNCHES ULTRA-FAST GIGABIT INTERNET SPEEDS IN BUFORD, JONESBORO, LAWRENCEVILLE, NORCROSS, ROSWELL, SUGAR HILL AND SUWANEENEE

AT&T offers Internet speeds up to 1 gigabit per second on the 100% fiber AT&T GigaPower network and access to award winning TV services

ATLANTA, FEB. 2, 2016 — AT&T¹ launched ultra-fast Internet service today with speeds up to 1 gigabit per second over the [AT&T GigaPower](#) network to homes, apartments and small businesses in parts of Buford, Jonesboro, Lawrenceville, Norcross, Roswell, Sugar Hill, Suwanee and surrounding communities.²

The launch of the AT&T GigaPower network in these areas is in addition to the Atlanta area cities where AT&T had previously made the ultra-fast Internet service available: parts of Alpharetta, Athens, Atlanta, Brookhaven, Cartersville, Covington, Decatur, Duluth, Dunwoody, East Point, Johns Creek, Milton, Newnan, Rome, Sandy Springs, Smyrna, Woodstock and surrounding communities.

Internet speeds up to 1 gigabit per second³ over a 100% fiber network enable you to instantly access the latest online movies, music, games, and can improve your experience when connecting to the cloud, videoconferencing and more. With speeds up to 1 gigabit per second you can download 25 songs in a second, a TV show in 3 seconds or your favorite HD movie in less than 36 seconds.⁴

“Launching today is just one more milestone on the path to providing Buford, Jonesboro, Lawrenceville, Norcross, Roswell, Sugar Hill and Suwanee area consumers and small businesses access to life in the blazing fast lane,” said Bill Leahy, president AT&T-Georgia. “We are excited about keeping up that pace as we expand and enhance the AT&T GigaPower network to more locations.”

AT&T GigaPower customers also have access to the latest Wi-Fi technology, making it possible to enjoy our best in-home Wi-Fi experience, faster Wi-Fi speeds, expanded coverage and support for all of your devices.

Customers on the AT&T GigaPower network in the Atlanta area will be able to choose between our [award-winning](#) DIRECTV or U-verse TV services.

When you sign up for qualified DIRECTV programming, you get immediate access to a broad range of TV content on your compatible mobile device through our DIRECTV application, even before we install your TV service, through our “Walk out Watching” program.⁵

In the home DIRECTV customers with qualified programming have access to more than 315 channels. DIRECTV offers more than 200 channels in full-time HD, and is the undisputed leader in sports. You can watch the programming you love, live or On Demand and experience it on almost any screen. DIRECTV On Demand offers access to more than 10,000 movies and shows to high-speed Internet customers with connected set-top boxes, including the hottest new Pay Per View releases available through DIRECTV Cinema (additional fees apply).

Customers on the AT&T GigaPower network who order AT&T U-verse TV service can watch and record up to 6 HD programs at the same time, and will be able to record and store more of their favorite shows – up to 900 hours of SD or 330 hours of HD programming.

Consumers in eligible areas can choose from single, double and triple play offers to ensure they have the right combination of services to fit their needs. The packages below equipment, and waivers of installation and activation fees.

- U-verse High Speed Internet Premier: Internet speeds up to 1Gbps for as low as \$70 a month.⁶
- U-verse High Speed Internet Premier + TV: Internet speeds up to 1Gbps and qualifying TV service for as low as \$120 a month.
- U-verse High Speed Internet Premier + TV + Voice: Internet speeds up to 1Gbps with qualifying TV service and Unlimited U-verse Voice for as low as \$150 a month.

We successfully launched the first AT&T GigaPower metro in Austin, Texas 2 years ago. That led to a [major expansion](#) in multiple U.S. metros beginning in 2014. In 2015 we marked a major milestone deploying the AT&T GigaPower network to more than 1 million locations, and we expect to more than double availability by the end of 2016.

AT&T GigaPower is now available in 20 of the nation's largest metros areas, and we've announced plans to expand our ultra-fast Internet service in parts of 36 additional metro areas - which will total at least 56 metros served.

We plan to continue to roll out our fastest Internet services over a 100% fiber network to reach more than 14 million residential and commercial locations.

AT&T has invested in Georgia communications networks, people and local communities for 136 years. Between 2012 through 2014, AT&T invested more than \$5.4 billion in its best-in-class wireless and wired networks in Georgia, driving a wide range of upgrades to enhance reliability, coverage, speed and performance for residents and business customers. AT&T employs about 21,000 people across the state.

For more information on AT&T GigaPower, or to check availability, please visit att.com/gigapower.

¹ AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand name and not by AT&T Inc.

² Limited availability in select areas. May not be available in your area. Go to att.com/gigapower to see if you qualify.

³Internet speed claims represent maximum network service capability speeds. Actual customer speeds may vary and are not guaranteed. Actual speeds vary based on factors incl site traffic, content provider server capacity, internal network management factors, device capabilities and use of other U-verse services. For more info, go to www.att.com/speed101.

⁴Speed/Time examples are estimates.

⁵Limit 5 shows/devices at once. Channels vary. Access expires at earliest of 14 days/system installation. Data rates may apply. Additional restrictions apply.

⁶AT&T GigaPower Premier offer is available with agreement from customer to participate in AT&T Internet Preferences. AT&T may use Web browsing information, like the search terms entered and the Web pages visited, to provide customers with relevant offers and ads tailored to their interests. Taxes, additional fees and restrictions may apply. Pricing subject to change. Different offers and prices may apply for small businesses.
