AT&T Launches Ultra-Fast Internet Speeds in San Diego

Speeds up to 1 Gigabit per Second Available on the AT&T GigaPower Network in parts of the San Diego Metro Area

SAN DIEGO, June 10, 2016 — AT&T¹ today launched ultra-fast internet service in parts of San Diego, San Marcos, Carlsbad and surrounding communities.² Customers in the area will be able to get internet speeds up to 1 gigabit per second³ (Gbps) in homes, apartments and small businesses.

Internet speeds up to 1Gbps over our 100% fiber AT&T GigaPower network are blazing fast.

- Instantly access the latest online movies, music and games.
- Connect faster to the cloud, videoconferencing and more.
- Download 25 songs in 1 second, a TV show in 3 seconds or your favorite HD movie in less than 36 seconds.⁴

AT&T GigaPower is currently available in nearly 15 apartment complexes in the San Diego area, including all properties in the master-planned community of [Civita](#) in Mission Valley.

We plan to expand our AT&T GigaPower network in parts of Chula Vista and more communities throughout 2016 and beyond.

"By launching AT&T GigaPower in the San Diego area, we are demonstrating our continued commitment to our customers whose appetite for high-speed data continues to grow," said Amanda Harris, assistant vice president, AT&T Mobility Markets. "As the ways in which we communicate and seek entertainment become more data-intensive, our customers will benefit from the launch of our AT&T GigaPower service."

"Expanding GigaPower to more residents and businesses in the San Diego area is yet another example of AT&T's continued investment in the advanced infrastructure that customers in California want and need," said Ken McNeely, president of AT&T California. "Demand for high speed data grows with each new app and web-based service, and AT&T is delivering to meet that demand."

Mayor Kevin L. Faulconer said, "San Diego is a city of boundless opportunities and we are proud to add to our city's culture of innovation through AT&T's GigaPower network. AT&T is a fantastic community leader that continues to play an important role in the economic growth and quality of life of our City. I'm looking forward to seeing more benefits and growth from AT&T as they continue to add this new network for our city's residents, families and businesses."

AT&T GigaPower

AT&T GigaPower offers internet speeds up to 1Gbps for as low as \$70 a month.⁵

AT&T GigaPower customers have access to the latest Wi-Fi technology. They can enjoy our best in-home Wi-Fi experience, faster Wi-Fi speeds, expanded coverage and support for all of their devices.

Customers may be able to choose between our [award-winning DIRECTV](#) or U-verse TV services. We have single, double and triple play offers to fit each customer's needs.

The AT&T GigaPower network is currently available in over 1.6 million locations across 24 of the nation's largest metro areas. We have plans to expand the availability of ultra-fast internet speeds up to 1 gigabit per second in parts of 32 more areas – at least 56 metros in total.

Ultimately, we'll plan to reach more than 14 million residential and commercial locations with fiber.

AT&T has invested more than \$7.25 billion in its wireless and wireline networks in California between 2013 through 2015. This drives upgrades to reliability, coverage, speed and performance for residents and business customers.

Additionally, our AT&T Business Fiber internet service is already available to small businesses in parts of more than 180 U.S. cities, making it possible to download and upload at speeds up to 300 megabits per second.⁶ Certain markets now have speeds up to 1 gigabit per second available over AT&T Business Fiber. We plan to expand to additional markets this summer. It supports business applications, such as video conferencing, working in the cloud and disaster recovery.
