100% Fiber Network Powered by AT&T Fiber Expands in Los Angeles County

Ultra-Fast Internet Speeds Available to Homes, Apartments and Small Business Locations in Additional Los Angeles Area Cities

LOS ANGELES, Nov. 15, 2016 — AT&T¹ launched ultra-fast internet service in additional cities in Los Angeles County, including in parts of Arcadia, Pasadena, Santa Clarita and surrounding areas.² We're offering a 1 gigabit connection³ to Los Angeles County homes, apartments and small business locations on our 100% fiber network powered by AT&T FiberSM.

Our fastest internet speed, AT&T Internet 1000, is now available at over 130 multifamily area properties, such as The Paseos at Magnolia and Palisades.

We previously announced ultra-fast internet speeds available in parts of Anaheim, Arcadia, Corona, Eastvale, Fontana, Glendale, Irvine, Los Angeles, Orange County, Palmdale and Riverside and surrounding communities. Today, we also announced that the service is available in part of Orange County, including parts of Anaheim, Fullerton, Lake Forest, Mission Viejo, Orange, San Clemente and surrounding areas. In Los Angeles County, we plan to expand access to ultra-fast internet speeds in parts of Alhambra, Culver City and South Gate in the future.

Los Angeles is one of 44 metros nationwide where our ultra-fast internet service is currently available. We plan to reach at least [67 metros](#) with our fastest internet service.

We market our ultra-fast service to over 3 million locations nationwide, of which over 500,000 include apartments and condo units. We're on track to meet the 12.5 million locations planned by mid-2019.

"AT&T continues to invest in Southern California to bring high-speed internet to our customers," said Mike Silacci, assistant vice president, AT&T California. "The Greater Los Angeles area is home to technology, entertainment, and a variety of growing industries. AT&T Fiber will help all of business grow and thrive."

"This announcement from AT&T is welcome news for our community," said Holly Schroeder, president & CEO of the Santa Clarita Valley Economic Development Corporation. "Connectivity is essential to growing our economy and maintaining our high quality of life."

The Santa Clarita Valley is growing as a tech center, and increased access to high-speed internet is vital for our businesses to be competitive in the global marketplace.”

Internet-only pricing for customers who choose AT&T Internet 1000, our fastest speed tier on our 100% fiber network, starts as low as \$90 a month. Customers may be able to add one of our [award-winning DIRECTV](#) or U-verse TV services. We have single, double and triple play offers to fit each customer’s needs.

Internet customers on the 100% fiber network have access to the latest Wi-Fi technology. They can enjoy our best in-home experience with faster Wi-Fi speeds and broad coverage to seamlessly connect all their devices.

What can I do with a service that starts with a 1 gig connection?

These internet speeds are 20x faster than the average cable customer.⁴ You can download 25 songs in 1 second or your favorite 90-minute HD movie in less than 34 seconds.⁵ Customers can enjoy our fastest upload and download speeds.

You can also instantly access and stream the latest online movies, music and games. These ultra-fast speeds let you seamlessly telecommute, video-conference, upload and download photos and videos, and connect faster to the cloud.

What is AT&T Fiber?

The 100% fiber network under the AT&T Fiber umbrella brand gives customers the power to choose from a wide range of internet speeds over an ultra-fast internet connection. This network is just one of the network technologies we plan to use to connect customers as a part of AT&T Fiber.

AT&T in Los Angeles:

AT&T has invested more than \$2.1 billion in its wireless and wireline networks in Los Angeles between 2013 through 2015. This drives upgrades to reliability, coverage, speed and performance for residents and business customers.

¹ AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand name and not by AT&T Inc.

² Initial availability limited to select areas. May not be available in your area. Go to att.com/fibermap to see if you qualify.

³ Internet speed claims represent maximum network service capability speeds. Actual customer speeds may vary and are not guaranteed. Actual speeds vary based on factors including site traffic, content provider server capacity, internal network management factors, device capabilities and use of other AT&T services. For more information, go to: www.att.com/speed101.

⁴Available in select areas. 20x faster based on maximum download speed of AT&T Internet 1000 vs weighted average cable internet customers' speed of major U.S. cable providers per the FCC 2015 Measuring Broadband America – Fixed Broadband Report. Actual speeds vary.

⁵Speed/Time examples are estimates.
