

News Release

100% Fiber Network Powered by AT&T Fiber Expands in Los Angeles Area

Ultra-Fast Internet Speeds Available to Homes, Apartments and Small Business Locations in Additional Los Angeles Area Cities

LOS ANGELES, March 23, 2017 —AT&T¹ is now offering a 1 gigabit connection² on our 100% fiber network powered by AT&T FiberSM to customer locations in the Los Angeles area, including in parts of La Mirada, West Hollywood and surrounding areas.³

Our fastest internet speed, AT&T Internet 1000, is now available to nearly 125,000 homes, apartments and small businesses in the Greater Los Angeles Metro area, including at over 340 multifamily area properties, such as The Paseos at Magnolia, Palisades and 1000 Grand Avenue.

We previously announced ultra-fast internet speeds available in parts of Corona, Eastvale, Fontana, Glendale, Irvine, Los Angeles, Orange County, Palmdale, Riverside and surrounding communities. We plan to expand access to ultra-fast internet speeds in parts of Garden Grove and Gardena in the future.

The Los Angeles area is one of 51 metros nationwide where our ultra-fast internet service is currently available. We plan to reach at least 67 metros with our fastest internet service.

We market our ultra-fast service to nearly 4 million locations nationwide, of which over 650,000 include apartments and condo units. We plan to reach 12.5 million locations by mid-2019.

“Los Angeles County has always been on the cutting edge of innovation and continually finds new ways to provide expanded services for their residents, visitors, and businesses,” said Mike Silacci, AVP External Affairs, AT&T California. “Our customers in the greater Los Angeles area are increasingly interacting with their world in more data-intensive ways, which is why we’re continuing to expand the availability of our fastest internet speeds in the area.”

“High-speed internet is critical to growing our local economy, connecting our residents with friends and family, and continuing to increase the quality of life in our communities,” said Leron Gubler, President & CEO, Hollywood Chamber of Commerce. “We are excited to have AT&T bring its 100% Fiber network to our city and for the possibilities that come with it.”

Internet-only pricing for customers who choose AT&T Internet 1000, our fastest speed tier on our 100% fiber network, starts as low as \$80 a month with a 12-month commitment.⁴ Customers may be able to add one of our [award-winning DIRECTV](#) or U-verse TV services. We have single, double and triple play offers to fit each customer's needs.

Internet customers on the 100% fiber network have access to our latest Wi-Fi technology. They can enjoy our best in-home experience with faster Wi-Fi speeds and broad coverage to seamlessly connect all their devices.

What can I do with a service that starts with a 1 gig connection?

These internet speeds are 20x faster than the average cable customer.⁵ You can download 25 songs in 1 second or your favorite 90-minute HD movie in less than 34 seconds.⁶ Customers can enjoy our fastest upload and download speeds.

You can also quickly access and stream the latest online movies, music and games. These ultra-fast speeds let you easily telecommute, video-conference, upload and download photos and videos, and connect faster to the cloud.

What is AT&T Fiber?

The 100% fiber network under the AT&T Fiber umbrella brand lets customers choose from a range of internet speeds, all over an ultra-fast internet connection. This network is just one of the network technologies we plan to use to connect customers as a part of AT&T Fiber.

Frost & Sullivan recently recognized AT&T for its leadership in high-speed internet services. It awarded AT&T the 2016 Company of the Year Award for Broadband Access. The analyst firm praised AT&T for "rapidly evolving into a new form of telecommunications company; one that is based on the delivery of broadband access, both fixed and mobile, as well as services that ride that access."

AT&T in Los Angeles Metro Area:

AT&T has invested more than \$2.1 billion in its wireless and wireline networks in the Los Angeles Metro Area between 2013 through 2015. This drives upgrades to reliability, coverage, speed and performance for residents and business customers.

¹ AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand name and not by AT&T Inc.

² Actual customer speeds may vary. Download speeds are typically up to 940Mbps due to overhead capacity reserved to deliver.

³ Initial availability limited to select areas. May not be available in your area. Go to att.com/fibermap to see if you qualify.

⁴ After 12 months, price moves to standard rate of \$119/mo.

⁵Available in select areas. 20x faster based on maximum download speed of AT&T Internet 1000 vs weighted average cable internet customers' speed of major U.S. cable providers per the FCC 2015 Measuring Broadband America – Fixed Broadband Report. Actual speeds vary.

⁶Speed/Time examples are estimates.
