

## News Release

### **AT&T Invests Nearly \$625 Million Over 3-Year Period to Boost Local Networks in Colorado**

DENVER, August 9, 2018 — At [AT&T](#)<sup>1</sup>, we've invested nearly \$625 million in our Colorado wireless and wired networks during 2015-2017. These investments boost reliability, coverage, speed and overall performance for residents and businesses. They also improve critical services that support public safety and first responders.

In 2017, AT&T made 665 wireless network upgrades in Colorado. We boosted coverage with new cell sites and antenna systems and additional network capacity.

The AT&T LTE network now covers more than 400 million people in North America. Notable Colorado network enhancements in 2017 included:

- Boosted coverage for customers at Red Rocks Amphitheatre, Copper Mountain Resort, Denver Museum of Nature and Science, and Canvas Stadium at Colorado State University by deploying new antenna systems;
- Upgraded antenna systems at Denver International Airport, Pepsi Center and City of Vail;
- Built new cell sites in Eastern Castle Rock, Colorado Springs (Academy & Airport), Southeast Aurora, Cherry Creek, Downtown Denver, Westminster, near Mile High Stadium and the Highlands;
- Launched 4G LTE in Lamar, Woody Creek-Snowmass, Leadville and Sterling.

By building out our 4G LTE network, we're laying the foundation for 5G, the next advance in network technologies. We're boosting network speeds and capacity, as we continue to expand the availability of our network using the latest technology.

Since the formation of the FirstNet public-private partnership a little over a year ago, governors from all 50 states, 5 territories and D.C. recognized the value of FirstNet, joining in its mission to strengthen and modernize public safety's communications capabilities.

FirstNet is a new nationwide communications platform dedicated to America's public safety community. As we build, deploy and evolve FirstNet, we will build upon our current and planned investments in Colorado to help ensure public safety's network delivers the coverage and cutting-edge capabilities first responders expect – today and for decades to come.

For the 4<sup>th</sup> year in a row, AT&T earned the top spot in the telecommunications industry on FORTUNE's Most Admired Companies list in 2018. We also placed No. 49 among the 50 most admired companies across all industries.

We were ranked first or second in all 9 attributes used to compile the list, including innovation, people management, quality of management, long-term investment value, quality of products/services and global competitiveness.
