

Boonville, Indiana to Deliver Fiber-Powered Broadband Access to More than 4,000 Locations via AT&T

AT&T Fiber with speeds of up to 5 Gigs to help close the digital divide

BOONVILLE, IND. – July 6, 2022

The city of Boonville, Indiana and AT&T* have finalized a \$4.4 million contract that will result in AT&T building its state-of-the-art fiber network to more than 4,000 locations throughout the city.

“This is an exciting day for our city, as our residents will soon have access to AT&T Fiber and the incredible internet speeds it provides,” said Mayor Charlie Wyatt, City of Boonville. “Connectivity is crucial to the success of a community and we are so pleased to now officially be moving forward with AT&T on this important project.”

AT&T has extensive experience deploying fiber-optics across Indiana. In fact, hundreds of thousands of locations in the state have access to AT&T Fiber today. AT&T is also currently working with neighboring [Vanderburgh County](#) to bring AT&T Fiber to unincorporated parts of the county later this year.

“Our AT&T Fiber network is fast and reliable, and it’s helping communities like Boonville close the digital divide for its businesses and people,” said Bill Soards, president, AT&T Indiana. “We look forward to continuing to work with Mayor Charlie Wyatt, the City Council, and the Board of Works on this connectivity collaboration.”

Extensive planning and engineering work for this project will begin immediately. The network is expected to be complete in 18 months.

AT&T Fiber is the fastest among major providers and offers symmetrical speeds of up to 5-Gigs on downloads and uploads.¹ The faster speeds and increased bandwidth mean customers can connect multiple devices, stream multiple

¹ **Limited availability in select areas.** Fastest among major internet service providers, based on 5Gbps offering. Internet speed claims represent maximum wired network service capability speeds to the home and recommended setup. Actual customer speeds are not guaranteed. Single device wired speed maximum 4.7Gbps. For more information go to www.att.com/speed101.

entertainment sources, quickly upload content to social media and experience ultra-low lag for pro-level gaming – all at the same time.

Affordable internet service is available for low-income households as part of AT&T's commitment to help close the [digital divide](#). [Access from AT&T](#) offers low-cost broadband options, including free internet for eligible households when combined with federal benefits from the Affordable Connectivity Program (ACP).² After you confirm your [ACP eligibility](#), call us at 866-986-0963 to discuss your options and order service. Be sure to have your National Verifier application ID handy when you call.

About AT&T in Indiana

From 2019-2021, AT&T invested more than \$1 billion in its wireless and wireline networks in [Indiana](#) to expand coverage and improve connectivity in more communities. That investment has increased reliability, coverage and overall performance for residents and businesses. It's also improved critical communications services for Indiana's first responders using the [FirstNet](#)[®] network.

Becoming the Best Broadband Provider

We are on a mission to be the best broadband provider in America, whether you're at home, work or on the move. We do this by combining the most reliable 5G network³ with the fastest growing fiber internet in America⁴, so you have a seamless experience from a single provider. Becoming the best connectivity provider also means serving the critical mission of America's first responders. FirstNet[®], Built with AT&T is the only purpose-built, nationwide wireless broadband communications platform dedicated to the public safety community.

² With Access from AT&T. 100Mbps speed or lower based on location.

³ Based on nationwide GWS drive test data. GWS conducts paid drive tests for AT&T and uses the data in its analysis. AT&T 5G requires compatible plan and device. 5G not available everywhere. Go to att.com/5Gforyou for details.

⁴ Based on publicly-available data of net customer adds for major fiber providers over previous four quarters.
