AT&T PLANS TO LAUNCH BLAZING FAST GIGABIT INTERNET SPEEDS IN GREENVILLE AREA

AT&T's fastest Internet speeds available over 100% fiber, up to 1 gigabit per second, and access to award winning TV services

Over 1 million Locations Passed Today, AT&T More Than Doubling Footprint by End of 2016

38 Additional Metros Scheduled to Receive Service, Already Live in 18

GREENVILLE, Dec. 7, 2015 – AT&T¹ announced today it is planning to expand the availability of ultra-fast speeds through [AT&T GigaPowerSM](#) to homes, apartments and small businesses in parts of 38 additional metros across the United States, which will total at least 56 metros served, including in the Greenville area.²

With the launch of our ultra-fast Internet service in parts of 2 of these metros today – Los Angeles and West Palm Beach – AT&T GigaPower is now available in 20 of the nation's largest metro areas.

Internet speeds up to 1 gigabit per second over the AT&T GigaPower network let you instantly access the latest online movies, music, games and more.³ AT&T GigaPower can also improve your experience when connecting to the cloud and videoconferencing, and gives you the speed to power all of your devices.

“We’re proud to be bringing this advanced, ultra-high-speed technology to South Carolina and look forward to launching in the Greenville area,” said Pamela Lackey, president of AT&T South Carolina. “The AT&T GigaPower network will help encourage economic development in the Upstate by facilitating a new wave of innovation through enhanced opportunities for education, health, research and small business growth. This reflects the ongoing efforts by South Carolina’s state and local leaders to build and maintain a public policy environment that encourages private investment in advanced technology.”

News Release

"When we talk about making South Carolina's environment for business development competitive, we're talking about things like offering the companies we're recruiting, and those already growing in our state, the latest and most innovative technology infrastructure," said Gov. Nikki Haley. "That's why AT&T's announcement that it plans to deploy gigabit speed Internet service across South Carolina is terrific news for our employers, employees, students and families."

"One of the keys to Greenville becoming the most beautiful and livable city in America is sustainable economic development to attract new jobs in environmentally-sound industries," said Greenville Mayor Knox White. "High-speed broadband not only connects people and opportunities, but it is the foundation for precisely the kinds of clean, high-skilled, 21st Century jobs we want our city to be known for. I am excited to see AT&T is planning to bring its AT&T GigaPower network to Greenville and look forward to the positive impact that this new fiber-optic network will have on our community."

"This is outstanding news that reaffirms our region's reputation as an innovation and technology center in today's global marketplace," said Dr. Ronnie L. Booth, Chairman of the Upstate SC Alliance. "We appreciate the leadership of our state and local policy makers in creating an environment that welcomes investments in advanced technologies, like the AT&T GigaPower network."

Nearly 2 years ago, we successfully launched the first AT&T GigaPower metro in Austin, Texas. This launch led to a [major expansion](#) in multiple metros beginning in 2014. We recently marked a major milestone deploying the AT&T GigaPower network to more than 1 million locations, and we expect to more than double availability by the end of 2016.

We'll continue to roll out our fastest Internet services over a 100% fiber network to reach more than 14 million residential and commercial locations.

AT&T GigaPower gives customers some of the fastest online speeds available anywhere. You can download 25 songs in less than a second, a TV show in three seconds or your favorite HD movie in less than 36 seconds.⁴

News Release

AT&T GigaPower customers also have access to the latest Wi-Fi technology, making it possible to enjoy our best in-home Wi-Fi experience. You get faster Wi-Fi speeds, expanded coverage and support for all your devices.

With DIRECTV now a part of the AT&T family, customers on the AT&T GigaPower network in the Greenville area will be able to choose between our [award-winning](#) DIRECTV or U-verse TV services.

When you sign up for qualified DIRECTV programming, you get immediate access to a broad range of TV content on your compatible mobile device through our DIRECTV application, even before we install your TV service, through our “Walk out Watching” program.⁵

In the home DIRECTV customers with qualified programming have access to more than 315 channels, more than 200 in full-time HD, and the most comprehensive selection of sports programming. You can watch the programming you love, live or On Demand and experience it on almost any screen. DIRECTV On Demand offers access to more than 10,000 movies and shows to high-speed Internet customers with connected set-top boxes, including the hottest new Pay Per View releases.

Customers on the AT&T GigaPower network in markets eligible for AT&T U-verse TV service can watch and record up to 6 HD programs at the same time, and will be able to record and store more of your favorite shows – up to 900 hours of SD or 330 hours of HD programming.

We’re continuing to work with local leaders within the 21 state service area who are interested in expanding the availability of the 100% fiber-optic AT&T GigaPower network to consumers and small businesses.

Frost & Sullivan recently recognized AT&T for its leadership in high-speed Internet services. It awarded AT&T the [2015 North American Competitive Strategy and Innovation Leadership of the Year Award for Broadband](#). The analyst firm praised AT&T for its “aggressive pursuit of higher bandwidth access” for customers through its AT&T GigaPower network initiative.

AT&T has served South Carolina for more than 136 years and currently employs more than 2,400 people in the state. AT&T invested more than \$875 million in South Carolina's wireline and wireless networks from 2012 through 2014 to provide South Carolina consumers, schools

News Release

and businesses a complete package of Internet, TV and voice services wrapped in an industry-leading customer experience.
