AT&T LAUNCHES BLAZING FAST GIGABIT INTERNET SPEEDS IN WEST PALM BEACH AREA TODAY

Delray Beach First in Palm Beach County to Get the Ultra-Fast Internet Service

WEST PALM BEACH, Fla., Dec. 8, 2015 – AT&T¹ today launched ultra-fast Internet service to residential and small business customers in parts of Delray Beach and unincorporated West Delray available through [AT&T GigaPowerSM](#).²

AT&T GigaPower is already available in parts of Coral Gables, Coconut Creek, Davie, Doral, Fort Lauderdale, Hialeah, Hollywood, Homestead, Miami, Miami Gardens, Oakland Park, Parkland, Pompano Beach and surrounding communities.

The 100% fiber network delivers some of AT&T's fastest Internet speeds available. Customers can download 25 songs in less than 1 second, a TV show in 3 seconds or their favorite HD movie in less than 36 seconds.³

AT&T GigaPower offers Internet speeds up to 1 gigabit per second.⁴ It can improve the experience for customers when connecting to the cloud, doing a videoconference, streaming videos and music, playing online games and more.

"The incredibly fast Internet speeds that AT&T GigaPower offers can help accelerate the benefits this technology brings to residents' quality of life and small business customers' success," said Joe York, AT&T Florida president. "The expansion of the 100% fiber AT&T GigaPower network in the West Delray Beach area compliments our efforts to educate citizens on using and benefiting from Internet-Protocol-based technologies, like wireless devices and ultra-fast Internet."

News Release

AT&T GigaPower customers also have access to the latest Wi-Fi technology, making it possible to enjoy our best in-home Wi-Fi experience. You get faster Wi-Fi speeds, expanded coverage and support for all your devices.

“As part of the technology trial taking place here in the West Delray Beach area, we’ve collaborated with AT&T to educate the community on how to connect to the latest and fastest technology available.” said Bob Schulbaum, president – Delray Alliance. “We’ve offered ‘tech trainings’ to seniors in the community to show how they can use newer products and devices to connect with friends and family in all sorts of different ways: texting, talking, using video and social media sites. These connections help local citizens understand the real benefits of increasing the availability of technology. The announcement that AT&T GigaPower Internet service will now be available here is the most recent example of how AT&T is helping to connect residents using the latest technology.”

With DIRECTV now a part of the AT&T family, customers on the AT&T GigaPower network in the West Palm Beach area will be able to choose between our [award-winning](#) DIRECTV or U-verse TV services.

Consumers in eligible areas can choose from single, double and triple play offers to ensure they have the right combination of services to fit their needs. The packages below include waivers of equipment, installation and activation fees.

- U-verse High Speed Internet Premier: Internet speeds up to 1Gbps starting as low as \$110 a month, or speeds at 300Mbps as low as \$80 a month, with a 1-year price guarantee.⁵
- U-verse High Speed Internet Premier + TV: Internet speeds up to 1Gbps and qualifying TV service starting as low as \$150 a month, or speeds at 300Mbps and qualifying TV service as low as \$120 a month, with a 1-year price guarantee.
- U-verse High Speed Internet Premier + TV + Voice: Internet speeds up to 1Gbps with qualifying TV service and Unlimited U-verse Voice starting as low as \$180 a month, or speeds at 300Mbps with qualifying TV service and Unlimited U-verse Voice as low as \$150 a month, with a 2-year price guarantee.

News Release

Nearly 2 years ago, we successfully launched the first AT&T GigaPower metro in Austin, Texas. This launch led to a [major expansion](#) in multiple metros beginning in 2014. We recently marked a major milestone deploying the AT&T GigaPower network to more than 1 million locations and we expect to more than double availability by the end of 2016.

AT&T GigaPower is now available to homes, apartments and small businesses in parts of 20 metro areas with an additional 36 metro areas planned – which will total at least 56 metros served.

We'll continue to roll out our fastest Internet services over a 100% fiber network to reach more than 14 million residential and commercial locations.

AT&T has invested in Florida communications networks, people and local communities for 135 years. Between 2012 through 2014, AT&T invested more than \$2.8 billion in its Florida wireless and wireline networks. AT&T employs more than 15,000 people across the state.

For more information on AT&T GigaPower, or to check availability, please visit att.com/gigapower.

¹ AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand and not by AT&T Inc.

² Initial availability limited to select areas. May not be available in your area.

³ Speed/time examples are estimates.

⁴ Internet speed claims represent maximum network service capability speeds. Actual customer speeds may vary and are not guaranteed. Actual speeds vary based on factors including site traffic, content provider server capacity, internal network management factors, customer device capabilities and use of other U-verse services. Max speeds may not be realized if 2 or more HD shows viewed at same time. For more info, go to www.att.com/speed101

⁵ AT&T GigaPower Premier offer is available with agreement from customer to participate in AT&T Internet Preferences. Other equipment fees may apply. AT&T may use Web browsing information, like the search terms entered and the Web pages visited, to provide customers with relevant offers and ads tailored to their interests. Different offers and prices may apply for small businesses.
