## AT&T Launches Ultra-Fast Internet Speeds in Atlanta

*Speeds up to 1 Gigabit per Second Available on the AT&T GigaPower Network*

ATLANTA, July 14, 2016 — [AT&T](#)<sup>1</sup> today launched ultra-fast internet service in parts of Acworth, Kennesaw, Suwanee and surrounding communities.<sup>2</sup> Customers in the area will be able to get speeds up to 1 gigabit per second<sup>3</sup> (Gbps) in homes, apartments and small businesses.

Internet speeds up to 1Gbps over our 100% fiber [AT&T GigaPower](#) network are blazing fast.

- Instantly access the latest online movies, music and games.
- Connect faster to the cloud, videoconferencing and more.
- Download 25 songs in 1 second or your favorite HD movie in less than 36 seconds.<sup>4</sup>

We'll continue to expand our 100% fiber AT&T GigaPower network in parts of College Park, Marietta, Powder Springs and more areas.

The service is currently available in nearly 100 apartment complexes in the Atlanta area, including at the AMLI at Barrett and at The Heights at Old Peachtree.

"By expanding AT&T GigaPower to additional cities in Atlanta, we are demonstrating our continued commitment to our customers whose appetite for access to data at high-speeds continues to grow," said Bill Leahy, Georgia state president, AT&T. "As the ways in which we communicate and seek entertainment become more data intensive, our customers will benefit from our expansion of our AT&T GigaPower service."

### [AT&T GigaPower](#)

AT&T GigaPower offers internet speeds up to 1Gbps for as low as \$70 a month.<sup>5</sup>

AT&T GigaPower customers have access to the latest Wi-Fi technology. They can enjoy our best in-home Wi-Fi experience, faster Wi-Fi speeds, expanded coverage and support for all of their devices.

Customers may be able to choose between our [award-winning DIRECTV](#) or U-verse TV services. We have single, double and triple play offers to fit each customer's needs.

The AT&T GigaPower network is currently available in over 1.6 million locations across 26 of the nation's largest metro areas. We have plans to expand the availability of ultra-fast

internet speeds up to 1 gigabit per second in parts of 30 more areas – at least 56 metros in total.

Ultimately, we'll plan to reach more than 14 million residential and commercial locations with fiber.

AT&T invested more than \$3.15 billion in its Atlanta area wireless and wireline networks between 2013 and 2015. This drives upgrades to reliability, coverage, speed and performance for residents and business customers.

Additionally, our AT&T Business Fiber internet service is already available to small businesses in parts of more than 180 U.S. cities, making it possible to download and upload at speeds up to 300 megabits per second.<sup>6</sup> Certain markets now have speeds up to 1 gigabit per second available over AT&T Business Fiber. We plan to expand to additional markets this summer. It supports business applications, such as video conferencing, working in the cloud and disaster recovery.

<sup>1</sup> AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand name and not by AT&T Inc.

<sup>2</sup> Initial availability limited to select areas. May not be available in your area. Go to [att.com/gigapower](http://att.com/gigapower) to see if you qualify.

<sup>3</sup> Internet speed claims represent maximum network service capability speeds. Actual customer speeds may vary and are not guaranteed. Actual speeds vary based on factors including site traffic, content provider server capacity, internal network management factors, device capabilities and use of other U-verse services. For more information, go to: [www.att.com/speed101](http://www.att.com/speed101).

<sup>4</sup> Speed/Time examples are estimates.

<sup>5</sup> AT&T GigaPower Premier offer is available with agreement from customer to participate in AT&T Internet Preferences. AT&T may use Web browsing information, like the search terms entered and the Web pages visited, to provide customers with relevant offers and ads tailored to their interests. Taxes, additional fees and restrictions may apply. Pricing subject to change. Different offers and prices may apply for small businesses.

<sup>6</sup> Geographic and service restrictions apply to AT&T Business Fiber. Acceptance of AT&T High Speed Internet Terms of Service at [att.com/internet-terms](http://att.com/internet-terms) is required. Internet speed claims represent maximum network Service Capability speeds. Actual customer speeds may vary and are not guaranteed. Actual speeds vary based on factors including site traffic, content provider server capacity, internal network management factors, device capabilities and use of other services.

**Cautionary Language Regarding Forward Looking Statements:** Information set forth in this news release contains financial estimates and other forward-looking statements that are subject to risks and uncertainties, and actual results may differ materially. A discussion of factors that may affect future results is contained in AT&T's filings with the Securities and Exchange Commission. AT&T disclaims any obligation to update or revise statements contained in this news release based on new information or otherwise.
