AT&T Launches Ultra-Fast Internet Speeds in Winter Springs

Speeds up to 1 Gigabit per Second Available on the AT&T GigaPower Network

Winter Springs, Fla., July 14, 2016 — AT&T¹ launched ultra-fast internet service in parts of Winter Springs and surrounding communities.² Customers in area homes, apartments and small businesses will be able to get speeds up to 1 gigabit per second (Gbps).³

AT&T GigaPower is now available in single-family homes, more than 25 apartment complexes and small businesses in the Orlando area. Today, in addition to Winter Springs, the service is also available in Melbourne, Ocoee and West Melbourne.

Internet speeds up to 1Gbps over our 100% fiber AT&T GigaPower network are blazing fast.

- Instantly access the latest online movies, music and games.
- Connect faster to the cloud, videoconferencing and more.
- Download 25 songs in 1 second or your favorite HD movie in less than 36 seconds.⁴

We'll continue to expand our 100% fiber AT&T GigaPower network to additional locations such as Deland, Ormond Beach, Port Orange and Rockledge. We previously made the AT&T GigaPower network available in locations across the Central Florida area, including in parts of Orlando, Oviedo, Sanford and surrounding communities.

"We've moved quickly to bring more competition for blazing-fast Internet speeds to more parts of the Central Florida area," said AT&T Florida president, Joe York. "Faster speeds over the AT&T GigaPower network keep people and small businesses connected as they are accessing more content on more devices."

"It's great to see faster internet access available to residents and small businesses in more Seminole County areas," said Jason Brodeur, President & CEO Seminole County Regional Chamber of Commerce. "Faster access is critical to business growth and keeping our communities connected. The AT&T service expansion in Winter Springs is great news for residents and small businesses alike."

AT&T GigaPower

AT&T GigaPower offers Internet speeds up to 1Gbps for as low as \$90 a month.⁵

AT&T GigaPower customers gain access to the latest Wi-Fi technology. They can enjoy our best in-home Wi-Fi experience, faster Wi-Fi speeds, expanded coverage and support for all of their devices.

Customers in parts of the Los Angeles metro area may also be able to choose between our [award-winning DIRECTV](#) or U-verse TV services. We have single, double and triple play offers to fit each customer's needs.

The AT&T GigaPower network is currently available in over 1.6 million locations across 26 of the nation's largest metro areas. We have plans to expand the availability of ultra-fast internet speeds up to 1 gigabit per second in parts of 31 more areas – at least 56 metros in total.

Ultimately, we plan to reach more than 14 million residential and commercial locations with fiber.

AT&T has invested more than \$350 million in its Orlando area wireless and wireline networks from 2013 through 2015. This drives upgrades to reliability, coverage, speed and performance for residents and business customers.
