AT&T Launches Ultra-Fast Internet Speeds in Oklahoma City Area

Speeds up to 1 Gigabit per Second Available on the AT&T GigaPower Network

OKLAHOMA CITY, May 10, 2016 — AT&T¹ today launched ultra-fast Internet service in parts of Oklahoma City, greater Canadian and Cleveland counties and surrounding communities.² Customers in area homes, apartments and small businesses will be able to get speeds up to 1 gigabit per second (Gbps).³

Internet speeds up to 1Gbps over our 100% fiber AT&T GigaPower network are blazing fast.

- Instantly access the latest online movies, music and games.
- Connect faster to the cloud, videoconferencing and more.
- Download 25 songs in 1 second, a TV show in 3 seconds or your favorite HD movie in less than 36 seconds.⁴

We're also launching the service today at multiple apartment complexes located in the Oklahoma City area. We are planning to expand our AT&T GigaPower network in parts of Moore, and other neighborhoods.

"AT&T has been meeting the needs of residents and businesses in the Oklahoma City area for more than a century. Deployment of this ultra-fast Internet service is just the latest step in delivering the newest technology to Oklahomans," said Steve Hahn, president, AT&T Oklahoma. "I want to thank Mayor Cornett, the City Council, Governor Fallin and the members of the Oklahoma Legislature who have worked so diligently to craft policies that support investment and spur job creation. Smart public policy decisions at the local and state level play a key role in driving investments like the AT&T GigaPower network."

"AT&T is a valued member of our local business community and has played a strategic role in the economic growth and vibrant quality of life in Oklahoma City," said Oklahoma City Mayor Mick Cornett. "We are proud to be the first city in Oklahoma to have the AT&T GigaPower network and look forward to the new economic and innovation opportunities it will enable for our residents, entrepreneurs and small businesses."

AT&T GigaPower

AT&T GigaPower offers Internet speeds up to 1Gbps for as low as \$110 a month.⁵

AT&T GigaPower customers have access to the latest Wi-Fi technology. They can enjoy our best in-home Wi-Fi experience, faster Wi-Fi speeds, expanded coverage and support for all of their devices.

Customers can also choose between our [award-winning](#) DIRECTV or U-verse TV services. We have single, double and triple play offers to fit each customer's needs.

The AT&T GigaPower network is currently available in over 1.6 million locations across 21 of the nation's largest metro areas. We have plans to expand the availability of ultra-fast Internet speeds up to 1 gigabit per second in parts of 35 more areas – at least 56 metros in total.

Ultimately, we'll plan to reach more than 14 million residential and commercial locations with fiber.

AT&T has invested more than \$1 billion in Oklahoma's wireless and wireline networks from 2011 through 2014. This drives upgrades to reliability, coverage, speed and performance for residents and business customers.

For more information on AT&T GigaPower, or to check availability, please visit att.com/gigapower.

¹ AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand name and not by AT&T Inc.

² Initial availability limited to select areas. May not be available in your area. Go to att.com/gigapower to see if you qualify.

³ Internet speed claims represent maximum network service capability speeds. Actual customer speeds may vary and are not guaranteed. Actual speeds vary based on factors including site traffic, content provider server capacity, internal network management factors, device capabilities and use of other U-verse services. For more information, go to: www.att.com/speed101.

⁴ Speed/Time examples are estimates.

⁵ AT&T GigaPower Premier offer is available with agreement from customer to participate in AT&T Internet Preferences. AT&T may use Web browsing information, like the search terms entered and the Web pages visited, to provide customers with relevant offers and ads tailored to their interests. Taxes, additional fees and restrictions may apply. Pricing subject to change. Different offers and prices may apply for small businesses.

About AT&T
