

News Release

AT&T Fiber Now Available via a 100% Fiber Network in Greater Huntsville Area

Ultra-Fast Internet Speeds Available to Homes, Apartments and Small Business Locations in Parts of Greater Huntsville Area

HUNTSVILLE, Ala., Oct. 11, 2016 — AT&T¹ launched ultra-fast internet service in parts of the Greater Huntsville area, including parts of Madison.² We now connect eligible homes, apartments and small business locations in the area to a 1 gigabit internet connection³ on our 100% fiber network under the AT&T FiberSM umbrella brand.

The Huntsville area is one of [67 metros](#) where we're making our fastest internet service available. We now market our ultra-fast service to over 3 million locations, of which over 500,000 include apartments and condo units. In the Huntsville area, there are more than 20 apartments and condo units on our 100% fiber network.

We're on track to exceed the 12.5 million locations planned by mid-2019.

"We are proud to deliver AT&T's fastest internet to our customers in the greater Huntsville area, offering enriched experiences as our customers increasingly interact with their world in more data-intensive ways," said Fred McCallum, president of AT&T Alabama. "At AT&T, we are committed to innovation and providing cutting-edge technologies such as our ultra-fast internet speeds that will enhance the many ways our customers live, work and play."

"Huntsville is home to some of our country's most innovative companies and continues to develop as a premier tech hub," said Tommy Battle, Mayor of Huntsville. "AT&T's continuing infrastructure investment and launch of ultra-fast fiber internet are instrumental to Huntsville becoming a Gig City and offering residents and businesses additional resources to thrive in today's digital society."

"It is exciting to have AT&T already fulfilling the promise it made less than a year ago to bring ultra-fast internet to Huntsville and surrounding communities," said Alabama Speaker of the House Mac McCutcheon. "New technology offers economic growth opportunities and enriches the quality of life for residents and business owners. I applaud AT&T's continuing investment in Madison County and throughout Alabama."

"Increased access to high-speed internet is an important ingredient for our flourishing local tech community," said Troy Trulock, Mayor of Madison. "AT&T is the first major provider to

offer these speeds to area residential customers. AT&T's ultra-fast internet is a welcome addition to our city and state.”

Internet-only pricing for customers who choose AT&T Internet 1000, our fastest speed tier on our 100% fiber network, starts as low as \$90 a month. Customers may be able to add one of our [award-winning DIRECTV](#) or U-verse TV services. We have single, double and triple play offers to fit each customer’s needs.

Internet customers on the 100% fiber network have access to the latest Wi-Fi technology. They can enjoy our best in-home Wi-Fi experience, faster Wi-Fi speeds, broad coverage and support for all of their devices.

What can I do with a service that starts with a 1 gig connection?

With internet speeds 20x faster than the average cable customer⁴, you can download 25 songs in 1 second or your favorite 90-minute HD movie in less than 34 seconds.⁵

You can also instantly access and stream the latest online movies, music and games. With these ultra-fast speeds, customers can seamlessly perform tasks like telecommuting, video-conferencing, uploading and downloading photos and videos, connect faster to the cloud and more.

What is AT&T Fiber?

The 100% fiber network under the AT&T Fiber umbrella brand gives customers the power to choose from a wide range of internet speeds over an ultra-fast internet connection. This network is just one of the network technologies we plan to use to connect customers to a broad range of internet speeds.

AT&T in Alabama:

AT&T has invested nearly \$1.2 billion in its wireless and wireline networks in Alabama between 2013 through 2015. This drives upgrades to reliability, coverage, speed and performance for residents and business customers.

AT&T’s infrastructure has been in the greater Huntsville area for some time, and we are proud of our long-standing presence in this community and our state. AT&T has been deploying fiber in Alabama since the mid-1980s and investing in our Alabama communications networks and our local Alabama communities for 137 years.

¹ AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand name and not by AT&T Inc.

² Initial availability limited to select areas. May not be available in your area. Go to att.com/fibermap to see if you qualify.

³ Internet speed claims represent maximum network service capability speeds. Actual customer speeds may vary and are not guaranteed. Actual speeds vary based on factors including site traffic, content provider server capacity, internal network management factors, device capabilities and use of other AT&T services. For more information, go to:

www.att.com/speed101.

⁴ More than 20x faster based on a maximum download speed of AT&T service over 100% fiber network (1Gbps speed tier) vs. weighted average cable Internet customer's speed of major U.S. cable providers per the FCC 2015 Measuring Broadband America – Fixed Broadband Report. Actual speeds may vary.

⁵ Speed/Time examples are estimates.
