

## News Release

### **AT&T Fiber Now Available via a 100% Fiber Network in the Greater New Orleans Area**

*Ultra-Fast Internet Speeds Available to Homes, Apartments and Small Business Locations in Parts of Greater New Orleans Area*

NEW ORLEANS, Oct. 18, 2016 — AT&T<sup>1</sup> launched ultra-fast internet service in parts of the greater New Orleans area.<sup>2</sup> We now offer eligible homes, apartments and small business locations in the area a 1 gigabit internet connection<sup>3</sup> on our 100% fiber network under the AT&T Fiber<sup>SM</sup> umbrella brand.

We've made ultra-fast internet speeds available in parts of the greater New Orleans area, including parts of St. Tammany Parish, Lafourche Parish, Tangipahoa Parish and Terrebonne Parish, and parts of the city of New Orleans. We plan to expand access to ultra-fast internet speeds in parts of Covington and Mandeville.

The greater New Orleans area is one of [67 metros](#) where we're making our fastest internet service available. We now market our ultra-fast service to over 3 million locations, of which over 500,000 include apartments and condo units. In the greater New Orleans area, there are more than 30 apartments and condo properties with our 100% fiber service.

We're on track to exceed the 12.5 million locations planned by mid-2019.

"Our customers are increasingly interacting with their world in more data-intensive ways," said Sonia Perez, state president, AT&T Louisiana. "A growing number of people are streaming content directly from their devices, and interacting with family and friends through live videos. For these reasons, we're bringing our fastest internet speeds to the Greater New Orleans area and its surrounding communities."

"The 100% fiber network from AT&T will contribute to our growing economy and high quality of life in St. Tammany Parish," said St. Tammany Parish President Pat Brister. "Access to high-speed internet will help create new jobs, grow small businesses and improve access to educational opportunities."

Internet-only pricing for customers who choose AT&T Internet 1000, our fastest speed tier on our 100% fiber network, starts as low as \$90 a month. Customers can also add our [award-winning DIRECTV](#) service. We have single, double and triple play offers to fit each customer's needs.

Internet customers on the 100% fiber network have access to the latest Wi-Fi technology. They can enjoy our best in-home Wi-Fi experience, faster Wi-Fi speeds, broad coverage and support for all of their devices.

### **What can I do with a service that starts with a 1 gig connection?**

With internet speeds 20x faster than the average cable customer<sup>4</sup>, you can download 25 songs in 1 second or your favorite 90-minute HD movie in less than 34 seconds.<sup>5</sup>

You can also instantly access and stream the latest online movies, music and games. With these ultra-fast speeds, customers can seamlessly perform tasks like telecommuting, video-conferencing, uploading and downloading photos and videos, connect faster to the cloud and more.

### **What is AT&T Fiber?**

The 100% fiber network under the AT&T Fiber umbrella brand gives customers the power to choose from a wide range of internet speeds over an ultra-fast internet connection. This network is just one of the network technologies we plan to use to connect customers as a part of AT&T Fiber.

### **AT&T in Louisiana:**

AT&T has invested more than \$1 billion in its wireless and wired networks in Louisiana between 2013 through 2015. These investments drive a wide range of upgrades to reliability, coverage, speed and overall performance for residents and businesses.

<sup>1</sup> AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand name and not by AT&T Inc.

<sup>2</sup> Initial availability limited to select areas. May not be available in your area. Go to [att.com/fibermap](http://att.com/fibermap) to see if you qualify.

<sup>3</sup> Internet speed claims represent maximum network service capability speeds. Actual customer speeds may vary and are not guaranteed. Actual speeds vary based on factors including site traffic, content provider server capacity, internal network management factors, device capabilities and use of other AT&T services. For more information, go to: [www.att.com/speed101](http://www.att.com/speed101).

<sup>4</sup> More than 20x faster based on a maximum download speed of AT&T service over 100% fiber network (1Gbps speed tier) vs. weighted average cable Internet customer's speed of major U.S. cable providers per the FCC 2015 Measuring Broadband America – Fixed Broadband Report. Actual speeds may vary.

<sup>5</sup> Speed/Time examples are estimates.

**Cautionary Language Regarding Forward Looking Statements:** Information set forth in this news release contains financial estimates and other forward-looking statements that are subject to risks and uncertainties, and actual results may differ materially. A discussion of factors that may affect future results is contained in AT&T Inc.'s filings with the Securities and Exchange Commission. AT&T disclaims

any obligation to update or revise statements contained in this news release based on new information or otherwise.
