

News Release

100% Fiber Network Powered by AT&T Fiber Expands in East Bay

Ultra-Fast Internet Speeds Available to Homes, Apartments and Small Business Locations in Additional East Bay Cities

HAYWARD, Calif., August 22, 2017 —AT&T* is now offering a 1 gigabit connection¹ on our 100% fiber network powered by AT&T FiberSM to customer locations in the East Bay, including in parts of Hayward and surrounding areas.²

Our fastest internet speed tier, AT&T Internet 1000, is now available to over 190,000 homes, apartments and small businesses in the San Francisco area

The San Francisco area is one of 57 metros nationwide where our ultra-fast internet service is currently available. We plan to reach at least 75 metros with our fastest internet service.

Today, we market a 1 gigabit connection¹ on our 100% fiber network to over 5.5 million locations across 57 metros. We plan to reach at least 12.5 million locations by mid-2019.

“An internet connection powered by AT&T Fiber is changing the way we live, work and solve problems,” said Marc Blakeman, Vice President for External Affairs, AT&T California. “We are excited to connect more East Bay customers to ultra-fast high-speed internet, which will help improve the quality of life and provide a boost to the local economy.”

"As technology continues to play a larger role in our lives, having strong digital infrastructure is vital to our business competitiveness and Information access," said East Bay Economic Development Alliance Executive Director Darien Louie. “We are excited that AT&T is bringing AT&T Fiber as it will allow our East Bay businesses and residents to succeed in the digital economy."

AT&T Internet 1000, is our fastest internet speed tier on our 100% fiber network. It is offered at \$70 per month for customers who bundle with another AT&T service on a single bill, or only \$80 per month standalone. Either way, there are no extra monthly fees and equipment is included with a 12-month agreement.³ Customers are also able to add our [award-winning DIRECTV](#) or U-verse TV service as well. We have single, double and triple play offers to fit each customer’s needs.

What can I do with a service that starts with a 1 gig connection?

You can download 25 songs in 1 second or your favorite 90-minute HD movie in less than 34 seconds.⁴ Customers can enjoy our fastest upload and download speeds.

You can also quickly access and stream the latest online movies, music and games. These ultrafast speeds let you easily telecommute, video-conference, upload and download photos and videos, and connect faster to the cloud.

What is AT&T Fiber?

Our 100% fiber network under the AT&T Fiber umbrella brand lets customers choose from a range of internet speeds, all over an ultrafast internet connection. This 100% fiber network is just one of the network technologies we plan to use to connect customers as a part of AT&T Fiber.

Frost & Sullivan recently recognized AT&T for its leadership in high-speed internet services. It awarded AT&T the 2016 Company of the Year Award for Broadband Access. The analyst firm praised AT&T for “rapidly evolving into a new form of telecommunications company; one that is based on the delivery of broadband access, both fixed and mobile, as well as services that ride that access.”

AT&T in California:

AT&T has invested nearly \$7.2 billion in its wireless and wireline networks in California between 2014 through 2016. This drives upgrades to reliability, coverage, speed and performance for residents and business customers.

¹Actual customer speeds may vary. Download speeds are typically up to 940Mbps due to overhead capacity reserved to deliver the data.

²Initial availability limited to select areas. May not be available in your area. Go to <https://www.att.com/internet/> to see if you qualify.

³After 12 months, price moves to standard rate of \$90/mo.

⁴Speed/Time examples are estimates.
