100% Fiber Network Powered by AT&T Fiber Expands in Los Angeles Area

Ultra-Fast Internet Speeds Available to Homes, Apartments and Small Business Locations in Additional Los Angeles Area Cities

LOS ANGELES, August 22, 2017 —AT&T* is now offering a 1 gigabit connection¹ on our 100% fiber network powered by AT&T FiberSM to customer locations in the Los Angeles area, including in parts of Alhambra, Gardena, Laguna Niguel and surrounding areas.²

Our fastest internet speed tier, AT&T Internet 1000, is now available to over 200,000 homes, apartments and small businesses in the Los Angeles area.

We plan to expand access to ultra-fast internet speeds in parts of Huntington Park and Monterey Park in the future.

The Los Angeles area is one of 57 metros nationwide where our ultra-fast internet service is currently available. We plan to reach at least 75 metros with our fastest internet service.

Today, we market a 1 gigabit connection¹ on our 100% fiber network to over 5.5 million locations across 57 metros. We plan to reach at least 12.5 million locations by mid-2019.

“We are proud to bring our fastest internet speed tier available to more communities throughout the Los Angeles region,” said Lane Mansell, AT&T’s general manager for Greater Los Angeles. “AT&T’s ultrafast internet speeds will open up more possibilities for our customers. They can enjoy doing the things they love online, with less frustration and in less time.”

“In order to continue economic growth and the high quality of life in Orange County, our residents need access to high speed internet,” said Lucy Dunn, CEO of the Orange County Business Council. “AT&T’s continued investment in fiber networks in Orange County will increase our connectivity and build on our reputation on a great place to live and work.”

AT&T Internet 1000, is our fastest internet speed tier on our 100% fiber network. It is offered at \$70 per month for customers who bundle with another AT&T service on a single bill, or only \$80 per month standalone. Either way, there are no extra monthly fees and equipment is included with a 12-month agreement.³ Customers are also able to add our [award-winning DIRECTV](#) or U-verse TV service as well. We have single, double and triple play offers to fit each customer’s needs.

What can I do with a service that starts with a 1 gig connection?

You can download 25 songs in 1 second or your favorite 90-minute HD movie in less than 34 seconds.⁴ Customers can enjoy our fastest upload and download speeds.

You can also quickly access and stream the latest online movies, music and games. These ultrafast speeds let you easily telecommute, video-conference, upload and download photos and videos, and connect faster to the cloud.

What is AT&T Fiber?

Our 100% fiber network under the AT&T Fiber umbrella brand lets customers choose from a range of internet speeds, all over an ultrafast internet connection. This 100% fiber network is just one of the network technologies we plan to use to connect customers as a part of AT&T Fiber.

Frost & Sullivan recently recognized AT&T for its leadership in high-speed internet services. It awarded AT&T the 2016 Company of the Year Award for Broadband Access. The analyst firm praised AT&T for “rapidly evolving into a new form of telecommunications company; one that is based on the delivery of broadband access, both fixed and mobile, as well as services that ride that access.”

AT&T in LOS ANGELES:

AT&T has invested more than \$2.75 billion in its wireless and wireline networks in Greater Los Angeles between 2015 through 2017. This drives upgrades to reliability, coverage, speed and performance for residents and business customers.

¹Actual customer speeds may vary. Download speeds are typically up to 940Mbps due to overhead capacity reserved to deliver the data.

²Initial availability limited to select areas. May not be available in your area. Go to <https://www.att.com/internet/> to see if you qualify.

³After 12 months, price moves to standard rate of \$90/mo.

⁴Speed/Time examples are estimates.
