

## All We Do is Win: AT&T Customers Have the 'Nation's Best 5G Network' According to GWS

*AT&T Also Named the 'Best Wireless Network' for the Fourth Consecutive Year*

DALLAS, Sept. 8, 2021

**What's the news?** On the heels of becoming [America's Most Reliable 5G Network](#),<sup>1</sup> we're giving our customers a few more reasons to feel confident that their network is the best.

We're now the Nation's Best 5G Network, according to the biggest test in the nation, which is run by Global Wireless Solutions and spans all 50 states.<sup>2</sup> But this isn't just any win -- AT&T\* was crowned the Best Overall Network too.<sup>3</sup> Here's what each win means for you:

**Our customers have the Best 5G Network.** We're setting the bar for 5G and the majority of you are seeing the benefits already. GWS found our customers access 5G the most, with 61% harnessing the power of our fast, reliable and secure 5G from their smartphones this year.

To experience the Best 5G Network, coverage is key.<sup>2</sup> AT&T 5G reaches more than [250 million people](#) nationwide and 73% of our customers said they have access to it where they live. That's plenty of fast, reliable, secure 5G to go around.

**Our customers have the Best Overall Network.** We did it again. We were named America's Best Wireless Network by GWS for the **FOURTH** year in a row.<sup>3</sup> Our network took the top honors for video, voice and reliability, which earned us this year's title.

For the first time, this award combined AT&T 5G with our 4G and LTE networks to give you the best overall performance, according to GWS standards. So if you're in a 5G area - or even if you're not - you'll have confidence in knowing the Nation's Best Overall Network still has you covered.

Our network strength reflects the fact that from 2016 to 2020, AT&T invested more than \$110 billion in our wireless and wireline networks, including capital investments and acquisition of wireless spectrum and operations.

**Every customer. Every smartphone with an unlimited plan.** The best network deserves our best deals. We changed the game by giving ALL customers the same great offer on the smartphones they love. **Only AT&T** gives our best deals to both new and existing customers, on all smartphones with an unlimited plan. And it's never been easier to switch or upgrade to the latest 5G smartphone. With savings this big, there's no better time to experience America's Best Network.<sup>2</sup>

**Only the best for our best.** "We built the best for you – our customers. We've invested significantly in our network, simplified our plans while adding value, expanded our deals to new and existing customers and continued to strive for excellence each and every day. Those efforts have landed us here – as the best 5G and overall wireless network in the U.S.," said Jenifer Robertson, executive vice president and general manager, AT&T Mobility.
