

AT&T First to Debut the Lenovo Connected Laptops

Pre-Order the Lenovo ThinkPad X13 5G Beginning Aug. 27 and Lenovo 300e Chromebook LTE Beginning Sep. 10

What’s the news? Work-from-anywhere is a term that we have become all too familiar with and AT&T* is adding more choices for our customers to do just that, with two new connected laptops – the Lenovo 300e Chromebook LTE and the Lenovo ThinkPad X13 5G¹. As the first carrier to offer the ThinkPad X13 5G, pre-orders will begin **Aug. 27** and online availability will begin **Sept. 17**. Pre-orders for the 300e Chromebook LTE begin **Sept. 10**, and it will be available for purchase online at att.com and in select stores **Sept. 28**, before it’s available anywhere else.

Why is this important? The Lenovo laptops boast operating systems that work seamlessly across your other devices. Whether it’s Chrome OS on the 300e Chromebook or Windows 10 Pro on the ThinkPad X13, customers can experience cross-platform integration, making it easier than ever to share files, send messages or other information across all different devices.

Lenovo 300e Chromebook LTE

When the Lenovo 300e Chromebook LTE arrives first at AT&T, it will tap into the power of 4G LTE on the largest network in North America². Consider it the perfect laptop for students and at just over \$11 a month³ on an installment plan, it won’t break the bank for back to school. Plus, it has some great features you won’t want to miss.

- **Durable Touch Display.** It features a lightweight, 11.6-inch HD touch display that is ready for a challenge, and your coffee, with its spill resistant keyboard⁴ and Corning Gorilla Glass screen.
- **Convertible Companion.** And the best part? This laptop is *built to flex*. It can switch from laptop to tablet mode and back with ease.
- **Battery.** Its 47Wh battery will keep you going from home, to school, and back without worry.

Lenovo ThinkPad X13 5G

Paired with the most reliable 5G network⁵, the Lenovo ThinkPad X13 5G is a high-powered laptop to match all your needs. It’s all packed into a lightweight design built strong enough to take on all of life’s moments with a 57.4Wh battery to keep you going.

- **Lightweight and Powerful.** It features a 13.3-inch display and weighs only 2.96 lbs and packs a punch with the impressive 11th Gen Intel processor.
- **Built-in Storage.** Expansive 512GB storage capabilities for you documents, music, movies and more.

Plus, we make it easy to attach unlimited⁶ plans to the laptops which will create a unique, unbounded experience for customers, with access to the internet anywhere the network is available.

What's the word? "The connected laptop space is growing quickly, with cellular connectivity predicted to come in 25% of all laptops in the next 3 years. So, in true AT&T fashion, we're delivering more options to our customers," said Jenifer Robertson, executive vice president and general manager, AT&T Mobility. "Whether you're on-the-go or staying in, you know you can rely on AT&T's fast, reliable, and secure network."

To learn more about AT&T 5G and where it's available, visit att.com/5GforYou.

- 1 AT&T 5G requires compatible plan. 5G not available everywhere. Go to att.com/5Gforyou for details.
- 2 Based on comparison of carrier owned & operated networks. No AT&T on-net coverage in select countries, including Canada.
- 3 "Wireless svc is add'l & req'd. Requires 0% APR 36-mo. installment agreement. \$0 down for well-qualified customers only. If svc cancelled, device balance due. \$30 Activ/Upgrade, add'l fees, taxes, other charges & restr's apply."
- 4 Up to 360mL. Spill-related damage to Lenovo ThinkPad notebooks is not covered under standard warranty. Customers are responsible for all notebook damage that occurs as a result of spills.
- 5 Based on nationwide GWS drive test data. GWS conducts drive tests for AT&T and uses the data in its analysis.
- 6 **AT&T may temporarily slow data speeds if the network is busy.**
