## AT&T Invests Nearly \$40 Million Over Three-Year Period to Connect Customers in Florence

Florence, South Carolina, July 1, 2021- AT&T\* is proud to connect customers across the country by continuing to grow the nation's best network<sup>1</sup>. From 2018-2020, we expanded coverage and improved connectivity in more communities by investing nearly \$40 million in our wireless and wireline networks in Florence.

AT&T's commitment to communities across the country continues and spans all layers of our network—from fiber to 5G to [FirstNet](#)<sup>®</sup>. These investments are essential to connecting our customers with their family, friends and colleagues by increasing the network's speed, reliability, coverage and overall performance.

In 2021, we are increasing our fiber footprint by 3 million customer locations across more than 90 metro areas that we currently serve, including in Florence. We also recently announced that AT&T will invest \$2 billion over the next 3 years to help address the [digital divide](#) nationwide. AT&T further improved critical communications for South Carolina's first responders and improved public safety with [FirstNet](#)<sup>®</sup> – America's public safety network.

"AT&T's investment in Florence confirms our commitment to expanding coverage and helping to boost the local economy," said Jane Sosebee, AT&T State President. "We hope to keep Florence residents connected to their loved ones and their work, while helping to ensure the efficiency of their local public safety personnel."

More details about our wireless coverage in Florence, and anywhere in the U.S., can be found on the [AT&T Coverage Viewer](#). For updates on the AT&T wireless network, please visit the [AT&T network news page](#).

### Expanding Access to Fiber

In order to meet the continual demands for reliable, high-speed connections in our increasingly virtual world, we are looking to the future and investing in solutions like fiber around the country.

AT&T Fiber<sup>®</sup> offers speeds of nearly 1 GIG<sup>2</sup> for both upload and download, which provides plenty of bandwidth for consumers and businesses and creates a better internet experience for bandwidth-heavy applications like video conferencing, virtual learning, telehealth, and gaming that are growing in popularity and importance. It has also proven to be 99% reliable<sup>3</sup> and offers consistently fast speeds, even during peak times.<sup>4</sup>

**Is fiber available in my area?** We currently offer AT&T Fiber in more than 90 metro areas across the U.S. AT&T Fiber is currently available in Florence. [To check out the latest fiber pricing options head to att.com.](#)

### **FirstNet: Dedicated to America's First Responders**

We are committed to improving public safety infrastructure. As a part of that commitment, we have invested and built FirstNet in public-private partnership with the First Responder Network Authority (FirstNet Authority) – an independent agency within the federal government. FirstNet is the *only* nationwide, high-speed broadband communications platform dedicated to and purpose-built for America's first responders and the extended public safety community.

- **Expanding to serve:** FirstNet focuses on where first responders need connectivity. We've moved quickly to deliver more coverage, boost capacity and drive new capabilities for first responders. Using all AT&T LTE commercial spectrum as well as high-quality Band 14 spectrum, FirstNet covers **2.71 million square miles nationwide**. And we're actively extending the reach of FirstNet in South Carolina to give agencies large and small the reliable, unthrottled connectivity and modern communications tools they require.
- **First responder-centric 5G:** FirstNet subscribers in parts of 38 cities and more than 20 venues now have access to AT&T 5G+. Our **approach to 5G** for public safety is unlike anything else. We've upgraded the dedicated FirstNet network core to enable 5G connectivity that is being built to intuitively optimize the experience for America's first responders. First responders maintain voice communications with *always-on* priority and preemption on LTE, while the intuitive FirstNet network determines the best route for data traffic with devices, whether that's 5G+ or LTE spectrum.

The FirstNet network is providing Florence public safety with truly dedicated coverage and capacity when they need. These advanced capabilities enable FirstNet to help fire, EMS and law enforcement personnel save lives and protect their communities.

FirstNet and the FirstNet logo are registered trademarks and service marks of the First Responder Network Authority. All other marks are the property of their respective owners.

<sup>1</sup> GWS awarded AT&T Best Network OneScore 2020. GWS conducts drive tests for AT&T and uses the data in its OneScore analysis.

<sup>2</sup> Internet speed claims represent maximum network service capabilities and based on wired connection to gateway. Actual customer speeds may vary based on a number of factors and are not guaranteed. Download speeds for Internet 1000 are typically up to 940Mbps due to overhead capacity reserved to deliver the data. For more information, go to [www.att.com/speed101](http://www.att.com/speed101).

<sup>3</sup> Based on network availability.

<sup>4</sup> Based on wired connection to the gateway.

### **\*About AT&T Communications**
