AT&T Invests Nearly \$850 Million Over 3-Year Period to Enhance Local Networks in Kansas

TOPEKA, Kan., May 12, 2016— At [AT&T](#)¹, we've invested nearly \$850 million in our Kansas wireless and wired networks during 2013-2015. These investments drive a wide range of upgrades to reliability, coverage, speed and overall performance for residents and businesses. They also enhance critical services that support public safety and first responders.

In 2015, AT&T made about 240 wireless network upgrades in Kansas. We added new cell sites, additional network capacity, and new wireless high-speed Internet connections. We also launched HD Voice, which enables clearer voice calls and simultaneous voice and data at 4G LTE speeds.

During 2015, we also launched AT&T GigaPower, which offers up to 1Gbps Internet speeds over our fiber-based network, in eight Kansas communities. We also continued a significant expansion of access to AT&T's business fiber network.

"Our investment in Kansas brings a host of new, innovative opportunities for residents and businesses," said Mike Scott, president of AT&T Kansas, AT&T. "We want our customers to be able to access the Internet at any moment, from almost any device and anywhere. We can make that happen thanks to state and local officials who are creating a positive environment that allows us to invest aggressively in Kansas."

"Having access to fast, strong, reliable high-speed Internet service translates into more job opportunities and helps us all work smarter and stronger," said Kansas Chamber of Commerce President and CEO Mike O'Neal. "AT&T's investment not only enhances economic opportunity for consumers and businesses – it also underscores our reputation as a great place to expand a business and create jobs."

Notable Kansas network enhancements in 2015 included:

- Launching AT&T GigaPower in parts of eight Kansas communities, including Fairway, Leawood, Lenexa, Mission Hills, Olathe, Overland Park, Prairie Village and Shawnee.
- Expanding AT&T business fiber, which since 2012 has added more than 17,000 business locations in Kansas.
- Making more than 210 wireless carrier additions, adding capacity to cell sites.
- Installing more than additional 20 wireless network upgrades.
- Building several new cell sites.

The AT&T LTE network covers 365 million people in North America. In 2015, we added several markets in Kansas to the extensive AT&T LTE network, including Dodge City, Garden City, Liberal, Pittsburg and Salina.

In 2016, for the second year in a row, FORTUNE magazine recognized AT&T as the Most Admired Telecommunications Company in the world. We also placed #48 among the Top 50 World's Most Admired companies. This is our third year in a row on the Top 50 list – AT&T is the only communications company on the list. We ranked #1 in all 9 attributes. This included innovation, financial soundness and quality of products/services. FORTUNE's Most Admired Companies lists are among the most highly respected indicators of corporate performance and reputation.

We offer Internet customers a great combination of speed and price. Additionally, AT&T high-speed Internet² customers have access to our entire national AT&T Wi-Fi Hot Spot Network at no additional charge³. We also offer our award-winning DIRECTV® service to eligible locations. Customers may be eligible for AT&T U-verse TV service, a 100% digital service available over our advanced network. In 2015, Woman's Choice Awards® named AT&T U-verse TV "America's Most Recommended Brand among women for Broadband, Television and Phone Service."

[AT&T GigaPower](#) offers our fastest Internet speeds, up to 1Gbps⁴ over a 100% fiber network to more than 1.5 million locations across 20 major metro areas. We've announced plans to expand the availability of Internet speeds up to 1Gbps to homes, apartments and small businesses in parts of 36 additional cities across the U.S. – which will total at least 56 metros served.

We plan to continue to roll out our fastest Internet services over a 100% fiber network to reach more than 14 million additional residential and commercial locations.

We have big plans for 2016. We'll be giving you the ability to access and stream [DIRECTV](#) video services over a wired or wireless Internet connection from any provider and from virtually any device – smartphone, tablet, Smart TV, streaming media hardware or PC. We plan for each service to come with a set number of simultaneous sessions. These services will not require annual contracts, satellite dishes or set-top boxes.

We have an extensive Wi-Fi network with more than 40,000 AT&T Wi-Fi Hot Spots at popular restaurants, hotels, bookstores and retailers. We provide access to Wi-Fi at more than 1 million Hot Spots around the world. Most AT&T smartphone and home Internet customers get access to our entire national Wi-Fi network at no additional cost. Wi-Fi usage doesn't count towards customers' monthly wireless data plans.⁵
