AT&T Invests Nearly \$275 Million Over 3-Year Period to Enhance Local Networks in Baltimore Area

BALTIMORE, May 3, 2017 — At [AT&T](#)¹, we invested nearly \$275 million in our Baltimore area wireless and wired networks during 2014-2016. These investments enhance reliability, coverage, speed and overall performance for residents and businesses. They also improve critical services that support public safety and first responders.

In 2016, AT&T made 145 wireless network upgrades in the Baltimore area.

“We’re investing to provide faster, more reliable, highly secure connectivity. We want customers to have internet access at any moment, from almost any device—anywhere,” said Denis Dunn, president, AT&T Maryland. AT&T. “These continued investments bring Baltimore area residents and businesses a host of new opportunities.”

The AT&T LTE network covers nearly 400 million people in North America.

The First Responder Network Authority (FirstNet) recently chose AT&T to build a nationwide public safety broadband network. The network will be dedicated to America’s police, firefighters, EMS personnel and other first responders when they need it. Should Maryland opt-in to the FirstNet network, we will build upon our current and planned investments with a dedicated focus on the state’s first responders.

And, we would expect to make a significant investment to upgrade and maintain Maryland’s FirstNet network over the next 25 years, bringing your first responders the coverage, value and experience they expect.

For the third year in a row, FORTUNE magazine recognized AT&T as the Most Admired Telecommunications Company in the world in 2017. We also placed No. 37 among the Top 50 World’s Most Admired companies. AT&T is the only telecommunications company on the list. We ranked No. 1 in all 9 attributes. This included innovation, financial soundness and quality of products/services.

We have an extensive national Wi-Fi network with more than 40,000 AT&T Wi-Fi hotspots at popular restaurants, hotels, bookstores and retailers. And we provide access to Wi-Fi at more than 1 million locations around the world. Most AT&T smartphone and home internet customers get access to the entire national AT&T Wi-Fi Hot Spot network.² at no additional cost. Wi-Fi usage doesn’t count against customers’ monthly wireless data plans.
