

## News Release

### **AT&T Invests Nearly \$1.7 Billion Over 3-Year Period to Enhance Local Networks in Indiana**

INDIANAPOLIS, May 11, 2017 — At [AT&T](#)<sup>1</sup>, we've invested nearly \$1.7 billion in our Indiana wireless and wired networks during 2014-2016. These investments drive a wide range of upgrades to reliability, coverage, speed and overall performance for residents and businesses. They also improve critical services that support public safety and first responders.

In 2016, AT&T made more than 1,200 wireless network upgrades in Indiana. We added new cell sites, additional network capacity, and new wireless high-speed Internet connections.

Following the passage of recent state legislation, AT&T will continue its investment in Indiana with additional upgrades.

"Gov. Eric Holcomb recently signed Senate Enrolled Act 213, which encourages companies to invest more in wireless infrastructure. We're now speeding our wireless buildout plans in Indiana with tens of millions of dollars dedicated to improving our mobile network," said AT&T Indiana President Bill Soards. "This investment will also pave the path to 5G mobile services."

"This investment news from AT&T is exactly why we pursued this critical legislation," said State Sen. Brandt Hershman. "Streamlining local regulations helps encourage investment and deployment of high-speed Internet access including 5G wireless technology."

"We appreciate AT&T's continued investment in the very latest technologies, which are bringing us faster speeds and meeting the needs of our innovators and job creators," said Indiana Chamber of Commerce President and CEO Kevin Brinegar. "I'm excited that through SEA 213, Indiana is building on its long history of supporting forward-thinking communications policy."

The AT&T LTE network covers nearly 400 million people in North America.

The First Responder Network Authority (FirstNet) recently chose AT&T to build a nationwide public safety broadband network. The network will be dedicated to America's police, firefighters, EMS personnel and other first responders when they need it. Should Indiana opt-in to the FirstNet network, we will build upon our current and planned investments with a dedicated focus on the state's first responders.

And we would expect to make a significant investment to upgrade and maintain Indiana's FirstNet network over the next 25 years, bringing your first responders the coverage, value and experience they expect.

For the third year in a row, FORTUNE magazine recognized AT&T as the Most Admired Telecommunications Company in the world in 2017. We were also No. 37 among the Top 50 World's Most Admired companies.

AT&T is the only telecommunications company on the list. We ranked No. 1 in all 9 attributes. This included innovation, financial soundness and quality of products/services.

We continue to expand the scope of our ultra-fast internet powered by [AT&T Fiber](#).

We have the largest fiber network within our 21-state wireline footprint.<sup>2</sup> We also now market a 1 gigabit connection<sup>3</sup> on our 100% fiber network to 4.6 million locations across 52 major metro areas. We plan to reach at least 75 major metros overall. We expect to add 2 million locations in 2017, and we plan to reach at least 12.5 million locations by mid-2019.

We have an extensive Wi-Fi network with more than 40,000 AT&T Wi-Fi hotspots at popular restaurants, hotels, bookstores and retailers. And we provide access to Wi-Fi at more than 1 million locations around the world. Most AT&T smartphone and home internet customers get access to the entire national AT&T Wi-Fi Hot Spot network.<sup>4</sup> at no additional cost. Wi-Fi usage doesn't count against customers' monthly wireless data plans.

To learn more about our coverage in Indiana, or anywhere in the U.S., visit the [AT&T Coverage Viewer](#). For updates on the AT&T wireless network, please visit the [AT&T network news page](#).

<sup>1</sup> AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand and not by AT&T Inc.

<sup>2</sup> Based on publicly available data for the top fiber providers in the AT&T operating footprint.

<sup>3</sup> Actual customer speeds may vary. Download speeds are typically up to 940Mbps due to overhead capacity reserved to deliver the data.

<sup>4</sup> Wi-Fi enabled device required. Other restrictions apply. See [www.attwifi.com](http://www.attwifi.com) for details and locations

### **Cautionary Language Concerning Forward-Looking Statements**

Information set forth in this news release contains financial estimates and other forward- looking statements that are subject to risks and uncertainties, and actual results may differ materially. A discussion of factors that may affect future results is contained in AT&T's filings with the Securities and Exchange Commission. AT&T disclaims any obligation to update or revise statements contained in this news release based on new information or otherwise.
