

## **AT&T Invests More than \$800 Million Over 3-Year Period to Enhance Local Networks in South Carolina**

COLUMBIA, SC, May 23, 2017 — At [AT&T](#)<sup>1</sup>, we've invested more than \$800 million in our South Carolina wireless and wired networks during 2014-2016. These investments drive a wide range of upgrades to reliability, coverage, speed and overall performance for residents and responders.

During 2014-2016, AT&T made the following investments in its wireless and wired networks:

- More than \$120 million in the Charleston area;
- More than \$175 million in the Columbia area; and
- More than \$120 million in the Greenville area.

"The future economic prosperity of South Carolina depends on thoughtful innovation and a fast, reliable network," said Gov. Henry McMaster. "Sustained capital investment in our state's infrastructure ensures that residents and businesses have the tools necessary to compete on a global level, grow here, and create opportunities for our people - which means an improved quality of life for all South Carolinians."

In 2016, AT&T made more than 2,500 wireless network upgrades in South Carolina.

"For individuals and businesses, life is moving faster than ever before," said Pamela Lackey, president of AT&T South Carolina. "We are investing in the advanced communications networks which not only help our customers and communities keep up, but lead and succeed in the race to the future."

The AT&T LTE network covers nearly 400 million people in North America.

The First Responder Network Authority (FirstNet) recently chose AT&T to build a nationwide public safety broadband network. The network will be dedicated to America's police, firefighters, EMS personnel and other first responders when they need it. Should South Carolina opt-in to the FirstNet network, we will build upon our current and planned investments with a dedicated focus on the state's first responders.

And we would expect to make a significant investment to upgrade and maintain South Carolina's FirstNet network over the next 25 years, bringing your first responders the coverage, value and experience they expect.

For the third year in a row, FORTUNE magazine recognized AT&T as the Most Admired Telecommunications Company in the world in 2017. We also No. 37 among the Top 50 World's Most Admired companies.

AT&T is the only telecommunications company on the list. We ranked No. 1 in all 9 attributes. This included innovation, financial soundness and quality of products/services.

We continue to expand the scope of our ultra-fast internet powered by [AT&T Fiber](#).

We have the largest fiber network within our 21-state wireline footprint.<sup>2</sup> We also now market a 1 gigabit connection<sup>3</sup> on our 100% fiber network to 4.6 million locations across 52 major metro areas. We plan to reach at least 75 major metros overall. We expect to add 2 million locations in 2017, and we plan to reach at least 12.5 million locations by mid-2019.

We have an extensive Wi-Fi network with more than 40,000 AT&T Wi-Fi hotspots at popular restaurants, hotels, bookstores and retailers. And we provide access to Wi-Fi at more than 1 million locations around the world. Most AT&T smartphone and home internet customers get access to the entire national AT&T Wi-Fi Hot Spot network.<sup>4</sup> at no additional cost. Wi-Fi usage doesn't count against customers' monthly wireless data plans.

To learn more about our coverage in South Carolina, or anywhere in the U.S., visit the [AT&T Coverage Viewer](#). For updates on the AT&T wireless network, please visit the [AT&T network news page](#).

<sup>1</sup> AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand and not by AT&T Inc.

<sup>2</sup> Based on publicly available data for the top fiber providers in the AT&T operating footprint.

<sup>3</sup> Actual customer speeds may vary. Download speeds are typically up to 940Mbps due to overhead capacity reserved to deliver the data.

<sup>4</sup> Wi-Fi enabled device required. Other restrictions apply. See [www.attwifi.com](http://www.attwifi.com) for details and locations
