AT&T Invests Nearly \$1.2 Billion Over 3-Year Period to Enhance Local Networks in Tennessee

NASHVILLE, TN, May 10, 2017 — At [AT&T](#)¹, we've invested nearly \$1.2 billion in our Tennessee wireless and wired networks during 2014-2016. These investments drive a wide range of upgrades to reliability, coverage, speed and overall performance for residents and businesses. They also improve critical services that support public safety and first responders.

In 2016, AT&T made 1,241 wireless network upgrades in Tennessee. The AT&T LTE network covers nearly 400 million people in North America. Notable Tennessee network enhancements in 2016 included:

- 554 Bandwidth Expansions
- 666 Additional Carrier Adds
- 12 New Site Builds
- 9 LTE 1C overlay on existing cell sites

AT&T plans to continue its investment in Tennessee with additional upgrades.

"We're now speeding our wired and wireless buildout plans in Tennessee with hundreds of millions of dollars dedicated to improving our network," said Joelle Phillips, president of AT&T Tennessee. "In addition to keeping Tennessee competitive with states across the country, this investment will also help pave the path to 5G mobile services in the years ahead."

"As we hear of investments like this, we can be thankful for the leadership of our state and local officials who were key in creating an environment that can lead to greater investments in Tennessee's communications networks," said Bradley Jackson, president, Tennessee Chamber of Commerce & Industry. "By investing in our state, AT&T is making business growth possible and ensuring our residents have the tools they need to stay connected."

The First Responder Network Authority (FirstNet) recently chose AT&T to build a nationwide public safety broadband network. The network will be dedicated to America's police, firefighters, EMS personnel and other first responders when they need it. Should Tennessee opt-in to the FirstNet network, we will build upon our current and planned investments with a dedicated focus on the state's first responders.

And we would expect to make a significant investment to upgrade and maintain Tennessee's FirstNet network over the next 25 years, bringing your first responders the coverage, value and experience they expect.

For the third year in a row, FORTUNE magazine recognized AT&T as the Most Admired Telecommunications Company in the world in 2017. We also No. 37 among the Top 50 World's Most Admired companies.

AT&T is the only communications company on the list. We ranked No. 1 in all 9 attributes. This included innovation, financial soundness and quality of products/services.

We continue to expand the scope of our ultra-fast internet powered by [AT&T Fiber](#). We have the largest fiber network within our 21-state wireline footprint.² We also now market a 1 gigabit connection³ on our 100% fiber network to 4.6 million locations across 52 major metro areas. We plan to reach at least 75 major metros overall. We expect to add 2 million locations in 2017, and we plan to reach at least 12.5 million locations by mid-2019.

We have an extensive Wi-Fi network with more than 40,000 AT&T Wi-Fi hotspots at popular restaurants, hotels, bookstores and retailers. And we provide access to Wi-Fi at more than 1 million locations around the world. Most AT&T smartphone and home internet customers get access to the entire national AT&T Wi-Fi Hot Spot network.⁴ at no additional cost. Wi-Fi usage doesn't count against customers' monthly wireless data plans.

To learn more about our coverage in Tennessee or anywhere in the U.S., visit the [AT&T Coverage Viewer](#). For updates on the AT&T wireless network, please visit the [AT&T network news page](#).

¹ AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand and not by AT&T Inc.

² Based on publicly available data for the top fiber providers in the AT&T operating footprint.

³ Actual customer speeds may vary. Download speeds are typically up to 940Mbps due to overhead capacity reserved to deliver the data.

⁴ Wi-Fi enabled device required. Other restrictions apply. See www.attwifi.com for details and locations
