

## News Release

### **AT&T Invests More Than \$80 Million Over 3-Year Period to Enhance Local Networks in Wyoming**

CHEYENNE, Wyo., May 18, 2017 — At [AT&T](#)<sup>1</sup>, we've invested more than \$80 million in our Wyoming wireless networks during 2014-2016. These investments drive a wide range of upgrades to reliability, coverage, speed and overall performance for residents and businesses. They also improve critical services that support public safety and first responders.

In 2016, AT&T made 97 wireless network upgrades in Wyoming. We added new cell sites, boosted network capacity and expanded our LTE coverage footprint.

"We're investing to provide fast, reliable, highly secure connectivity. We want customers to have internet access at any moment, from almost any device—anywhere," said Cheryl Riley, president, AT&T-Northern Plains. "These continued investments bring Wyoming residents and businesses a host of new opportunities."

The AT&T LTE network covers nearly 400 million people in North America. Notable Wyoming network enhancements in 2016 included:

- Boosted network coverage and capacity at Cheyenne Frontier Days;
- Doubled LTE capacity at cell sites in Casper, Laramie and Gillette;
- Launched new LTE service in Jackson, New Castle and Buffalo.

The First Responder Network Authority (FirstNet) recently chose AT&T to build a nationwide public safety broadband network. The network will be dedicated to America's police, firefighters and EMS personnel. Should Wyoming opt-in to the FirstNet network, we will build upon our current and planned investments with a dedicated focus on the state's first responders.

And we would expect to make a significant investment to upgrade and maintain Wyoming's FirstNet network over the next 25 years, bringing your first responders the coverage, value and experience they expect.

For the third year in a row, FORTUNE magazine recognized AT&T as the Most Admired Telecommunications Company in the world in 2017. We also No. 37 among the Top 50 World's Most Admired companies.

AT&T is the only communications company on the list. We ranked No. 1 in all 9 attributes. This included innovation, financial soundness and quality of products/services.

We have an extensive Wi-Fi network with more than 40,000 AT&T Wi-Fi Hot Spots at popular restaurants, hotels, bookstores and retailers. We provide access to Wi-Fi at more than 1 million Hot Spots around the world. Most AT&T smartphone and home Internet customers get access to our national Wi-Fi network at no added cost. Wi-Fi usage doesn't count towards customers' monthly wireless data plans.<sup>2</sup>
