

## News Release

### **AT&T Invests Nearly \$15 Million Over 3-Year Period to Boost Local Networks in Fort Wayne**

FORT WAYNE, Ind, July 2, 2019 — At [AT&T](#)<sup>1</sup>, we've invested nearly \$15 million in our Fort Wayne wireless and wired networks during 2016-2018. These investments boost reliability, coverage, speed and overall performance for residents and businesses. We've also improved critical services that support public safety and first responders using the FirstNet communications platform.

AT&T's wireless network covers more than 99% of all Americans and has become the fastest wireless network in the nation, according to the first quarter 2019 results from tests taken with Speedtest<sup>®</sup> and analyzed by Ookla<sup>®</sup>.<sup>2</sup>

In 2018, AT&T made more than 20 wireless network upgrades in the Fort Wayne area. Those included cell site tower upgrades, boosting network capacity, providing an overall better customer experience.

"We're always looking for new opportunities to enhance coverage for our customers and FirstNet subscribers," said AT&T Indiana President Bill Soards. "And our investment in Fort Wayne is another example of how AT&T is committed to local communities, helping keep our customers connected when and where they need it most."

"Businesses both big and small benefit from investments in improved connectivity like this," said State Rep. Martin Carbaugh. "By continuing to build state-of-the-art infrastructure here, AT&T is helping power innovation and job growth. We appreciate their ongoing efforts to support the Fort Wayne community."

The AT&T LTE network covers more than 400 million people in North America. By building out our 4G LTE network, we're boosting network speeds and capacity, as we continue to expand the availability of our network and upgrade our technology.

Additionally, for the 5th consecutive year we've landed on *Fortune* magazine's list of the "World's Most Admired" companies. It's also the 6th year in a row we've appeared on the Global Top 50 list – no other telecom company made the Top 50.

#### **Transforming Public Safety Communications**

FirstNet is Public Safety's dedicated, nationwide communications platform. It is for all first responders – career and volunteer, urban, or rural. It's bringing public safety communications into the 21st century with new, innovative capabilities, helping first

responders connect to the critical information they need – every day and in every emergency.

- Public safety agencies subscribed to FirstNet have 24/7 [access](#) to a nationwide fleet of 75 deployable network assets. These assets can either be deployed for planned events or called upon in emergencies to help first responders stay connected and operate faster, safer and more effectively when lives are on the line.

FirstNet is built with AT&T in a public-private partnership with the [First Responder Network Authority](#) – an independent agency within the federal government. This helps ensure that the FirstNet communications platform and service offerings meet the short- and long-term needs of the public safety community.

### **Our internet offerings**

We now market a 1 gigabit connection<sup>3</sup> on our 100% fiber network to more than 12 million locations across 85 major metro areas nationwide.

We plan to reach about 14 million locations across at least 85 metro areas by mid-2019 for consumers.

We are the largest U.S.-based provider of fiber for business services. There are over 500,000 U.S. business buildings lit with AT&T fiber, and we’re adding thousands more each month.

Within those buildings, AT&T now enables high-speed fiber connections to over 2.2 million U.S. business customer locations. And if you count businesses near our fiber network, that number quadruples. Nationwide, more than 8 million business customer locations are on or within 1,000 feet of our fiber.<sup>4</sup>

To learn more about our wireless coverage in Fort Wayne or anywhere in the U.S., go to the [AT&T Coverage Viewer](#). For updates on the AT&T wireless network, please go to the [AT&T network news page](#).

<sup>1</sup> AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand and not by AT&T Inc.

<sup>2</sup> Based on analysis by Ookla® of Speedtest Intelligence® data average download speeds for Q1 2019. Ookla trademarks used under license and reprinted with permission.

<sup>3</sup> Actual customer speeds may vary. Download speeds are typically up to 940Mbps due to overhead capacity reserved to deliver the data.

<sup>4</sup> The over 2.2 million U.S. business customer locations, which AT&T provides high-speed fiber connections, is included within the 8M U.S. business customer locations on or within 1,000 feet of our fiber.
