

### Vishy Gopalakrishnan

Vice President, Ecosystem & Innovation - Wireless Technology, AT&T Services, Inc.

Vishy is responsible for delivering advanced technologies and innovative products to solve business challenges, and actively engaging with the startup community to bring new capabilities to AT&T. Prior to his current role, Vishy was part of the AT&T Corporate Strategy team; delivering analysis and recommendations on new business opportunities. Before AT&T, Vishy has held leadership roles in product management, sales, alliances, and consulting across a variety of companies, including SAP, Nokia, Motorola, and Ernst & Young. Through his extensive experience, Vishy brings a depth of knowledge and expertise in delivering technological business solutions in mobile apps, networking, cloud, IoT, and security. A frequent speaker at industry events, Vishy is a co-author of “Work Goes Mobile” (Wiley, 2006).
