

Working From Anywhere Gets Better When the Lenovo ThinkPad X13s 5G Arrives on AT&T's 5G Network

DALLAS, Aug. 31, 2022

What's the news? Elevate your mobile connectivity with the AT&T* 5G network. On Sept. 2, the [Lenovo ThinkPad X13s 5G](#) will be available to AT&T customers for \$1,550.99 (\$43.09/mo. on installment¹). The new device can also be added to existing unlimited plans for \$20/mo.²

Powered by the Snapdragon® 8cx Gen 3 Compute Platform, this laptop combines the best of your smartphone with PC performance – delivering instant-on experiences and enabling up to multi-day battery life. It's also always connected, so AT&T customers can enjoy next-generation connectivity on the go with AT&T's fast, reliable and secure 5G³. Skip searching for Wi-Fi or power outlets while you're on the go.

What about features?

- The Lenovo ThinkPad X13s has 49.5-watt hours of battery capacity – up to 28 hours video playback⁴. AT&T customers also enjoy 15.5 days of standby time.
- You'll always be clearly heard and seen with smart collaboration features like a 13.3" touchscreen display, 5MP camera, AI enhanced auto-framing, echo cancellation and noise suppression.
- It's durable, with a fan-less design, and light at only 2.35 lbs. making it easy for travel.
- For AT&T customers, this device also comes with a half-ton CO₂ offset to cover the greenhouse gas (GHG) emissions generated by the device's manufacturing, shipping and average lifecycle. The offset is used to fund renewable energy projects around the world that reduce GHG emissions. It's part of our commitment as one of the world's largest companies to play a role in creating a better, more environmentally sustainable future.

Who was this designed for? The Lenovo ThinkPad X13s 5G was made for customers who need productivity with their PC from virtually anywhere. It resolves the daily power anxiety and connectivity issues that can come from being on the go, offering a seamless roaming experience between work-from-anywhere locations.

Business customers can also take advantage of the Lenovo ThinkPad X13s 5G for \$1,399.99 with a 2-year service commitment⁵.

What are people saying? "The combination of AT&T's 5G network, plus the first Lenovo ThinkPad to be powered by Qualcomm Snapdragon is a game changer for mobile professionals," said Jeff Howard, VP of hardware and partner solutions, AT&T. "With up to multi-day battery life, AI-accelerated video and audio, along with 5G connectivity, the X13s allows customers to confidently stay connected, powered-up, and productive from virtually anywhere."

*About AT&T

(NYSE:T), please visit us at about.att.com. Investors can learn more at investors.att.com.

¹Req's 0% APR, 36-mo. Installment agmt. \$0 down for well-qual. customers. Tax on full price due at sale. Credit card may be req'd (except MA, PA, ND). Fees, terms & restrictions apply."

²Taxes and fees extra.

³AT&T 5G requires compatible plan and device. 5G not available everywhere. Go to att.com/5Gforyou for details.

⁴Battery life claim is approximate and based on continuous 1080p video playback on the latest update of Windows 11 (with 150 nits brightness and default volume level). Actual battery life will vary and depends on many factors such as product configuration and usage, software use, wireless functionality, power management settings, and screen brightness. The maximum capacity of the battery will decrease with time and use.

⁵Requires 2-year service commitment and qualified credit. Taxes and certain fees apply at point of sale. Early termination fees may apply if you cancel before service term ends.
