# AT&T ActiveArmor® Mobile Security App Gets a Major Upgrade with More Safety and Value

*We've added even more protection for customers in our comprehensive security app – lost wallet recovery, ID restoration, password manager and social media identity protection*

---

**Key Takeaways**:

- AT&T ActiveArmor is the most comprehensive security app to help stop spam and scams including robocalls.
- We've added 5 new safety features to help give peace of mind at home or on the go.
- All you have to do is download and activate the app.

---

AT&T ActiveArmor has always managed unwanted calls and blocked harmful websites. We block or label more than 2 billion robocalls per month! **Now we've added FIVE more features to the most comprehensive security app to help stop spam and scams**.[1]

If you lose your wallet or fall victim to identity theft, we'll help you recover your credit cards, driver's license and more. If you forget a password, we have you covered with a password manager. We'll even watch your social media for signs of suspicious activity. **It's all on one incredible, redesigned app for AT&T wireless customers.**

- **Lost wallet recovery**: If you lose your credit cards, debit card, checkbook, driver's license, or other ID cards, we'll help you replace them. Call our recovery specialists with a single click in the app.[2]

- **ID restoration**: If you experience identity theft, we'll work with credit bureaus to mitigate the damage, send letters of dispute to creditors and file

an identity theft affidavit with the IRS. Just call our identity recovery specialists with a single click in the app.[2]

- **Password manager**: Experts recommend that people use unique passwords for their online accounts – and organize them for simplicity in an encrypted password manager. You can create, store, and recover your login credentials and automatically fill in online forms – right from the app.

- **Password manager web browser extension**: Get the same password features on your computer's browser by adding our extension to Chrome, Safari or Edge. It syncs with the password manager on your mobile AT&T ActiveArmor app.

- **Social media identity protection**: You can let AT&T ActiveArmor scan your social media accounts for signs of unauthorized activity, scams, malicious links, or content that could damage your reputation. Includes alerts.

The 5 new features are included in ActiveArmor Advanced mobile security for **no extra cost with our best wireless plans**, or just $3.99 per month with any other wireless plan.[3] The advanced plan also includes Safe Browsing to detect and block

harmful websites, monitoring of your personal information on the dark web, and Public Wi-Fi Protection (known as VPN).

AT&T ActiveArmor mobile security app offers free features for all AT&T customers on any plan. It gives you the control to block suspected spam calls or send them straight to voicemail, text-message blocking and controls, and more. Just download and activate the app.

“AT&T ActiveArmor has always helped keep our customers safe, now it’s even more valuable,” said Amanda Cacheris, AT&T Vice President, Features. “Security services can add up quickly when purchased separately. We’re providing a comprehensive solution that continues to evolve with security needs.”

You can start protecting your family by activating AT&T ActiveArmor today. Check out att.com/ActiveArmorApp.

[1] Requires compatible device/service and download of ActiveArmor app. Data charges may apply. Other terms and restrictions apply. May not detect all threats and may inadvertently block wanted calls.

[2] Recovery services does not include loyalty/membership cards, monetary compensation, or other cash alternatives, and services are not guaranteed.

[3] Advanced security requires Unlimited Extra® EL, Unlimited Premium® PL or select legacy plans, or it is available for $3.99/month plus tax with all other wireless plans. See www.att.com/activearmormseula
