

News Release

AT&T Invests More than \$525 Million Over Three-Year Period to Connect Local Customers in Arizona

PHOENIX, AZ, July 2 - AT&T* is proud to connect customers across the country by continuing to grow the nation's best network¹. From 2018-2020, we expanded coverage and improved connectivity in more communities by investing more than \$525 million in our wireless and wireline networks in Arizona.

AT&T's commitment to communities across the country continues and spans all layers of our network—from fiber to 5G to [FirstNet](#)[®]. These investments are essential to connecting our customers with their family, friends and colleagues by increasing the network's speed, reliability, coverage and overall performance.

AT&T further improved critical communications for Arizona's first responders and improved public safety with [FirstNet](#)[®] – America's public safety network. We also recently announced that AT&T will invest \$2 billion over the next 3 years to help address the [digital divide](#) nationwide.

"From connecting family and loved ones to helping first responders during a crisis, AT&T is committed to investing in Arizona to build state-of-the-art infrastructure that will keep people connected," said Toni M. Broberg, AT&T President, Arizona and New Mexico. "By continuing to improve our network at the state and local levels, we are helping businesses grow in Arizona and helping to ensure that our customers and communities stay connected throughout the country."

More details about our wireless coverage in Arizona, and anywhere in the U.S., can be found on the [AT&T Coverage Viewer](#). For updates on the AT&T wireless network, please visit the [AT&T network news page](#).

Bringing fast, reliable, secure AT&T 5G to more Americans

AT&T is also unlocking the power of 5G for consumers, businesses and first responders through both AT&T 5G and AT&T 5G+:

- **AT&T 5G**, delivered over sub-6 spectrum sets us up to offer a better wireless experience with greater capacity to enable faster responses on capable devices. AT&T offers fast, reliable and secure 5G to 240 million people in 14,000 cities and towns nationwide, including in Maricopa, Mohave and Pinal Counties.
AT&T 5G+ is our name for 5G delivered over a millimeter wave spectrum. Its super-fast speeds make it ideal for high-traffic areas and places like stadiums, arenas, school campuses, hospitals and will help unlock unprecedented experiences in iconic destinations and key venues. AT&T 5G+ is currently available in parts of 38 cities, including Phoenix, and more than 20 venues across the country.

FirstNet: Dedicated to America's First Responders

We are committed to improving public safety infrastructure. As a part of that commitment, we have invested and built FirstNet in public-private partnership with the First Responder Network Authority (FirstNet Authority) – an independent agency within the federal government. FirstNet is the *only* nationwide, high-speed broadband communications platform dedicated to and purpose-built for America's first responders and the extended public safety community.

- **Expanding to serve:** FirstNet focuses on where first responders need connectivity. We've moved quickly to deliver more coverage, boost capacity and drive new capabilities for first responders. Using all AT&T LTE commercial spectrum as well as high-quality Band 14 spectrum, FirstNet covers **2.71 million square miles nationwide**. And we're actively extending the reach of FirstNet in Arizona to give agencies large and small the reliable, unthrottled connectivity and modern communications tools they require.
- **First responder-centric 5G:** FirstNet subscribers in parts of 38 cities and more than 20 venues now have access to AT&T 5G+. Our [approach to 5G](#) for public safety is unlike anything else. We've upgraded the dedicated FirstNet network core to enable 5G connectivity that is being built to intuitively optimize the experience for America's first responders. First responders maintain voice communications with *always-on* priority and preemption on LTE, while the FirstNet network determines the best route for data traffic with compatible devices, whether that's 5G+ or LTE spectrum.

The FirstNet network is providing Arizona public safety with truly dedicated coverage and capacity when they need. These advanced capabilities enable FirstNet to help fire, EMS and law enforcement personnel save lives and protect their communities.

Our commitment to Arizona

AT&T is committed to the community and continues to invest and build lasting relationships through meaningful civic engagement. That's why AT&T and the AT&T Foundation support various organizations that help create sustainable progress for underserved communities, such as the Greater Phoenix Urban League, Chicanos Por La Causa, Black Philanthropy Initiative, UMOM New Day Centers and Casa de los Niños.

¹ GWS awarded AT&T Best Network OneScore 2020. GWS conducts drive tests for AT&T and uses the data in its OneScore analysis.

² Speeds vary and not guaranteed. Internet speed claims represent maximum network service capabilities and based on wired connection to gateway. Actual customer speeds may vary based on a number of factors and are not guaranteed. Download speeds for Internet 1000 are typically up to 940Mbps due to overhead capacity reserved to deliver the data. For more information, go to www.att.com/speed101.

³ Based on network availability.

⁴ Based on wired connection to the gateway.

***About AT&T Communications**
